

BANKING AND INSURANCE

Istanbul Gelisim University
Istanbul Gelisim Vocational School

“ *Our program is critical for those who want to pursue a career in the finance industry. It provides students with an in-depth understanding of areas such as financial analysis, risk management, and client relations.* ”

Assist. Prof. Duygu ÇELİK
Head of the Banking and Insurance Program

Istanbul Gelisim
Meslek Yüksekokulu

The Aim of the Program

It aims to provide the basic banking and insurance knowledge that should be found in the personnel needed by these fields and to equip our students with economics, accounting, law, tax, and marketing issues related to these fields.

— “ —

Our graduates can work in various positions in banks, insurance companies, investment firms, and other financial institutions.

— ” —

Future of the Program

To train specialized staff who know banking, insurance, and financial markets, as well as the essential functions of banking and insurance, who have gained customer relationship management skills and can use their knowledge in the sector.

Curriculum Information

Istanbul Gelisim University, Istanbul Gelisim Vocational School, Istanbul Gelisim Vocational School Banking and Insurance Program has a normal education period of two academic years and the total minimum credit amount to be completed depending on the student workload is 120 ECTS.

In the first two semesters, our students take the courses taught in common in our vocational school and the basic introduction to the field in a professional sense. Starting from the third semester, the focus is on vocational courses and our students begin to take elective courses as well as the compulsory courses required in the vocational sense.

Sectoral Collaborations

In its pursuit of excellence in education and research, our university attaches great importance to collaborating with public, private and non-governmental organizations. These collaborations enable us to build a stronger future by sharing our knowledge and resources and working together to achieve common goals.

Internship

At the end of the second or fourth semester, our students advance in their career journey by completing a 30-day summer internship in order to graduate.

Career Opportunities

Our students who graduate with associate degrees can work as sales consultants in call centers, box office units, and branches of banks as the first step in their careers. Our students can also work in insurance companies related to the insurance field, which is another field of our program, or they can enter business life by establishing their own agencies.

Activities

Our university and program contribute to gaining knowledge and skills and becoming individuals who will make their own difference and benefit society. Our students have the opportunity to develop their skills in various workshops, learn by having fun at festivals, raise awareness in social responsibility projects, participate in unforgettable events, and have the chance to show themselves in competitions. Our activities develop cooperation and team skills. They also offer career opportunities.

The activities carried out are as follows:

- Workshops
- Festivals
- Trips
- Seminars
- Symposiums
- Exhibitions
- Social Responsibility Projects
- Conversations
- Sustainable Events

Double Major Opportunities

The purpose of the double major program is to enable students who complete their major programs to study in a second major program free of charge. Students with a GPA of 2.90 out of 4.00 in their major program and in the top 20% of their undergraduate/pre-degree program can start the second major diploma program free of charge.

Erasmus+ Program

With Erasmus+, the European Union's (EU) grant program in education, youth, and sports opportunities, our students can access various opportunities such as education, training, internship, professional development, and non-formal learning-based youth activities abroad.

Research Centers

Innovative, technological, and sociological studies are carried out in many branches, with 20 different applications and research centers within our university. In addition, thematic research groups carry out studies that will contribute to science in 10 different fields, from food to construction and automotive to health.

The IGU Technology Transfer Office, established to provide the necessary information and guidance for academicians, researchers, students, and graduates to start their own initiatives, listens to students who say, "I have a project," and provides all kinds of opportunities to realize these projects.

Workshops, Laboratories and Studios

- 6 Computer Laboratory-PC
- Computer Laboratory-MAC

DGS Course

Istanbul Gelisim Vocational School organizes the Vertical Transfer Examination (DGS) Course for our students free of charge every year. In the course, topics for DGS, especially basic mathematics and geometry, are covered.

Our students can register for our course organized for second year students of our vocational school by applying on the announced dates and prepare for DGS free of charge.

English Course

Istanbul Gelisim Vocational School, which operates with the aim of increasing the human skills of our students within the framework of its vision of continuous development, opens professional English courses for our students. The aim of the courses is to provide education based on social sciences and natural sciences. In the lessons, our students' basic English knowledge is reinforced by studying field-specific English texts.

Our English courses are completely free and contribute to increasing the human skills of our students.

IGU from Alumni Perspective

Nuray YAŞAN

Banking and Insurance
Program Graduate

During my school life, I had the opportunity to meet and talk one-on-one with bankers and insurers both outside and inside the school. During my student period, I had the chance to intern at Ziraat Bank. When I graduated, I started working in an insurance company. I have opened my own agency and am doing my own business.
