**MONTHLY PRESS RELEASE**

**March 2021**

**Volume:1 Issue:3**

**[myo.gelisim.edu.tr](http://myo.gelisim.edu.tr)**

Dear Young People,

Istanbul Gelisim Vocational School, which started its education life in 2008, started to publish a monthly E-Bulletin as of 2021. We are very happy to bring you the march issue of our e-bulletin and to share with you the developments in our Vocational School. I believe you will enjoy reading our bulletin and I present my greetings and respect with the hope of meeting you in a new issue.

You can follow all the developments in our Vocational School on our social media channels.

Director of IGVS  
Assist. Prof. Dr. İsmail Cem AY

## News

Within the scope of the social responsibility project initiated by Assist.Prof.Dr. Güfte CANER AKIN, Assist.Prof.Dr. Aslıhan Güzin SELÇUK and Assist.Prof.Dr. İsmail Cem AY; On 07.04.2021, a technology class will be established in Kırklareli Çakıllı Primary School and Kırklareli Üsküp Atatürk Secondary School. "Ecological, Economic and Social Sustainability" is aimed in the project, which aims to minimize the wastes, transfer the resources to the generations by using the resources effectively and ensure its continuity in order to leave a healthy and clean environment to the future generations.

Within the scope of the project, 30 computers were renovated and reused by Istanbul Gelişim University, and 15 tablets were donated by collaborating companies. In this way, these devices that do not mediate our needs will be eliminated from being waste and will contribute to the education of our children as the guarantee of our tomorrow.

We hope that this solidarity movement created with the title of "Establishing Technology Classes in Village Schools Social Responsibility Project" will continue and reach more individuals. We inform you that we will share with you the happiness and excitement experienced in setting up the classes in the upcoming days.

Istanbul Gelisim Vocational School, Food Technology Program, Food Engineer msc Eda ŞENSU's paper titled "What is an antioxidant?" was published on IVGS Food Technology Program website. Free radicals damage the membranes of the body cells, lipids, proteins, nucleic acids and DNA in the cell structure and as a result, it causes a wide variety of diseases such as coronary diseases, diabetes, cancer, liver damage, cataracts. As a result of a natural and balanced diet, the antioxidants we get from natural food sources; It has the ability to prevent these oxidations and diseases caused by free radicals. As a result of the consumption of antioxidant foods with a conscious diet, the effects of free radicals that attack somatic cells and the immune system can be reduced. Examples of foods containing antioxidants; Spinach, broccoli, peach, tomato, blueberry, lemon, orange, strawberry and green leafy vegetables can be given. You can visit our website for the full paper.

## BEING A STUDENT IN IGU

### *Clubs Talk: Photo and Video Club*

Our club, keeping in mind the technological advances; It was established to provide students with experience in the field of photography and video shooting, to make applications and to share the work done with both our university and our external stakeholders. The photography and video clubs, which organize many events with the guests of the sector employees, also

ensure that the students have an idea about the sector with the experiences conveyed by the guests. The fields of activity of the club are as follows:

- To organize photo exhibitions. To make photography workshops.
- To invite photographers to school and to organize conversations / events.
- Conversations and workshops with professionals working in the field of cinema.
- Publishing a digital or printed newspaper in which our school's news will be published.
- Participating in cinema festivals.
- Making movie screenings and film analysis at school.
- To organize trips to photography exhibitions in Istanbul.
- To organize cinema and video workshops.
- To organize journalism workshops.
- To organize events for print media.
- To open a booth for the development of the club and to increase the number of members.

## BEING A STUDENT IN IGU

### *Meetings with High School Students: Open Door Lessons*

Istanbul Gelisim University organizes special events in order for high school students to experience the education given at the university during the university preparation process, to be motivated for the Examination of Higher Education Institutions, to learn about the quality of the education provided at Istanbul Gelisim University and most importantly to help students determine the areas suitable for them. "Open Door Lessons", which is a special activity for high school students, consists of sample lessons about Istanbul Gelisim University education.

We hope that you will learn more about yourself and Istanbul Gelisim University by attending Open Door Lessons, a special event with exemplary lessons. If you are curious about university education and want to take place in the lecture halls and classrooms of Istanbul Gelisim University on the online platform, you can visit our [website](#) for detailed information.

# THINGS TO KNOW

## ABOUT NEW CORONAVIRUS

All necessary measures are taken for the **coronavirus** revealed in Turkey and the World at **Istanbul Gelisim University**. **Things to know about coronavirus are as follows:**

### What are the new coronavirus symptoms?

- The most common symptoms are **fever, cough and respiratory distress**.
- In severe cases, **pneumonia, severe respiratory failure, kidney failure and death** may occur.
- Incubation period is between **2 and 14 days**.

### How is the virus transmitted?

- It can be transmitted by the contact of the droplets caused by **coughing and sneezing** with the contact of the **mouth, nose and eyes** of other individuals in certain environment and by touching the surfaces where the droplets adhere and taking hands **into the mouth, nose or eyes**.

### What to do to be protected from the virus?

- When **coughing or sneezing**, the mouth and nose should be covered with a **disposable tissue**, if there is no handkerchief, the mouth should be closed with the **upper sleeve or elbow**, not with the palms.
- **Handshaking and hugging** should be avoided.
- **Mouth, nose and eyes** should not be touched with dirty hands.
- Hands must be washed for **at least 20 seconds** in accordance with the **Handwashing Instructions** found in the toilets. In the absence of water and soap, **alcohol-containing hand antiseptics** should be used. **Cologne of 70-80 degrees** also serve as disinfectants.
- Offices and classrooms must be **ventilated hourly**.
- Places frequently used by many people such as common areas and door handles should be **disinfected every 2 hours**.
- Hands **must be washed** after using **public transportation**.
- Because the virus progresses faster in people with low immune system; **a balanced and healthy diet** is required. Foods **must be washed thoroughly** before consumption.

### What to do if there are symptoms?

- If you have come from countries with infections **in the past 14 days**, apply to the **nearest healthcare facility** by wearing a **surgical mask**.
- If you are **coughing, have a fever and have difficulty at breathing**, apply to the **nearest healthcare facility** by wearing a **surgical mask**.
- **Always wear your mask** when you are in the same room with a **person who is recommended insulation** at home.
