DEAN OF STUDENTS

The Dean of Students of Istanbul Gelisim University was established in order to contribute to the student-oriented learning environment in our university, increase student satisfaction, create a strong, safe and peaceful campus environment for our students and other members of our university, and ensure that our students graduate as qualified individuals ready to enter the business life. In order to achieve the goals, the Dean of Students helps students meet their demands and searches for solutions to their problems, diversifies the social and cultural activities within the campus, increases the participation of students in these activities and strengthens the learning environment. The activities are carried out in close cooperation with the administrative and academic units of our university. The Dean of Students, which acts as an intermediary between all units of our university, is obliged to convey your requests and opinions to the relevant unit and to follow up on the subsequent process.

We wish all our students a successful, happy, and healthy term.

Dean of Students

WORLD UNIVERSITIES RANKED
ACCORDING TO THEIR 'IMPACT POWER':

• ISTANBUL GELISIM UNIVERSITY •

- *1st in Turkey, 24th in the world in SDG 4 "Quality Education" category.
- *2nd in Turkey in SDG 7 "Accessible and Clean Energy" category.
- *3rd in Turkey in SDG 17 "Partnership for Purposes" category.
- *4th in Turkey in SDG 3 "Health and Quality of Life" category.
- *10th in Turkey in SDG 8 "Decent Work and Economic Growth" category.

#THEglobalimpact

Ayşe Begüm Onbaşı, a student of Istanbul Gelisim University School of Physical Education and Sports, competed in the Aerobic Gymnastics Turkey Championship organized by the Ministry of Youth and Sports and the Turkish Gymnastics Federation in Manisa.

Ayşe Begüm Onbaşı, World and European Champion in Aerobic Gymnastics, added new ones to her medals by writing her name in gold letters at the Aerobic Gymnastics Turkey Championship held in Manisa. Onbaşı won 3 gold medals in the individual senior women, pair and trio categories.

We congratulate our student for her success.

The 6th International Turkey Open Kick Boxing European Cup (Turkish Open) held in Antalya came to an end. 1600 athletes from 16 countries competed in the competitions.

Faruk Mert Yüksel, 4th grade student at Istanbul Gelisim University Physical Education and Sports School, Department of Exercise and Sport Sciences, competing at 74 kilograms, achieved a great success by ranking the 1st.

IDEAS DEVELOP and TURN INTO ENTERPRISES

With the 'Gelisim Biotech Tekmer' incubation center established within the body of Istanbul Gelisim University, ideas are now turning into enterprises.

The center, built on the theme of 'Bio-Electronics', offers a common working area for all entrepreneurs who develop projects in the fields of basic sciences and engineering.

How to Solve a Problem ?

When you face a problem, it is advised to follow the beneath instructions for a quick and practical solution. (Please contact the Directorate of Administrative and Financial Affairs if you experience a problem regarding tuition fees, refunds, scholarships, etc.)

Contact the Instructor

STEP
01

If you face a problem regarding your lessons, contact the responsible instructor and report your problem to find out the best solution.

STEP
02

Contact the Department/Program Head

If your problem cannot be solved by the instructor, contact the head of your department/program.

Contact the Deanery/Directorate

STEP
03

If your problem is still unsolved, reach the deanery/directorate.

Dean of Students Office

STEP
04

Contact The Dean of Students

If no solutions can be found to your problem or you are not satisfied with the solution, reach the Dean of Students Office either by filling a petition on IGUMER (recommended) or by e-mail. In case of necessity, you can visit the office.

CAMPUS LIFE AT IGU

Social Life on the Campus

The social areas on the Istanbul Gelisim University campus have been created in order to provide the students with the opportunities to use their extra-curricular time effectively and reveal their sportive abilities. Throughout the academic year, our students are given the opportunity to spend their free time and improve their skills with courses in basketball, volleyball, folk dances, and modern dance branches, each of which is organized under the supervision of instructors who are experts in their own branches.

ERASMUS+

What is the Erasmus+ Program?

Erasmus + Program is a European Union program to encourage institutions to cooperate with each other in the fields of education, youth, and sports. Communication of the European Commission with universities in Turkey is provided by the Center for European Union Education and Youth Programs (Turkish National Agency). Erasmus+ Program provides non-refundable financial support for higher education institutions to produce and implement joint projects with each other, exchange students and staff, and allows them to exchange students for a semester or a year and staff for a minimum of 2 days and a maximum of 5 days. It also encourages increasing the relations and cooperation between higher education institutions and business world in order to develop the higher education system in accordance with the needs of the business world and to increase the employability of university graduates. Our university participates in Erasmus programs with student and staff exchange every year.

Do Not Graduate without Experiencing Erasmus+!

Erasmus + Program contributes a lot to students. We can briefly summarize these contributions as follows:

- Getting to know a different education system and the institutions integrated into this system,
- Improving a foreign language,
- Seeing that you can accomplish many things on your own and contributing to increase your self-confidence level,
- Getting to know the economy and business life of the country you visit
- Increasing your awareness, ability to communicate with people and institutions and problem-solving skills,
- Expanding your communication network,
- Providing you with the opportunity to get to know yourself, your abilities, and limitations.

If you wonder why you should not graduate without having the Erasmus + experience, just take a look at the experiences of our students.

The Erasmus+ Experience

Participating in the Erasmus program is one of the best decisions a student can make in their lifetime. When I look back now as a graduate student, the experience I have had is one of those rare experiences that I am very happy with.

During the Erasmus Program, you not only improve your foreign language, you also have the opportunity to get to know different cultures and see new places. You get to know new people and make friends that may last a lifetime. At the same time, you gain the basic skills you will need in life as an individual with the responsibilities you take.

As a person who has had this wonderful experience, my advice to you is to do your best and be a part of this wonderful program. Have fun, learn, enjoy and experience freedom. Collect wonderful memories that you will never forget, even over the years.

Do not miss this great opportunity you will get once in a lifetime!

Büşra Bayram,
Faculty of Engineering and Architecture/ Department of
Architecture (English)
Cracow University of Technology, POLAND

The Erasmus+ Experience

Erasmus was simply a unique experience for me. It is a great feeling to discover one's own self, different cultures, different lifestyles, and meet people from different cultures. Erasmus is a program that offers you unlimited opportunities where you can experience unusual things, make great friendships from all over the world, have the opportunity to both have fun and improve yourself academically. I think all students who want to broaden their horizons and gain a new worldview should participate in this program.

You will see how your life changes when you participate in this wonderful program.

Emirhan Gürdamar
School of Physical Education and Sports – Department of
Recreation
Vincent Pol University in Lublin, POLAND

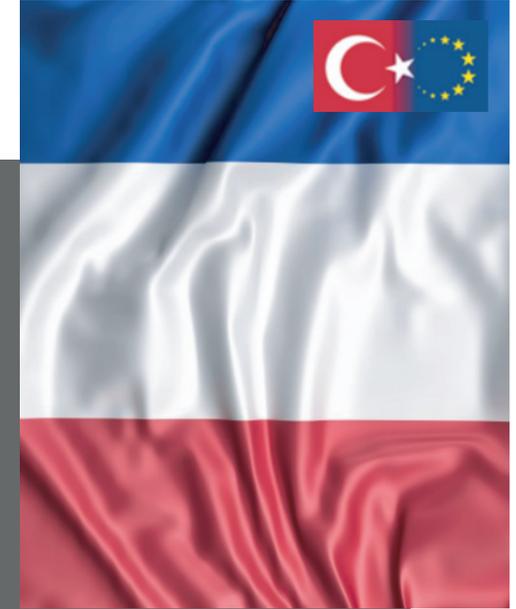

The Erasmus+ Experience

First of all, I am an Erasmus student at Istanbul Gelisim University. I'm from Romania, and I am a student at Bucharest Academy of Economic Studies and that means I left home to study abroad for one semester at Istanbul Gelisim University. I'm currently studying at the Faculty of Economics, Administrative and Social Sciences in the Business Administration Department at IGU.

I personally get the information about IGU from the options brochure of universities. It is from the brochure that you select your options and enters the Erasmus final selection process. I was awarded a place at IGU.

I can not speak of what the experience would have been if it weren't online but from the little experience that I have, I can say that I recommend wholeheartedly the university to everyone. A couple of things that I appreciated was the best designed online teaching system, both the OBIS and ALMS platforms are amazing. And then I would like to recommend the university for its teachers who have done a great job considering the times we're living in. Moreover, I would like to tell you that even if you come alone for studies as an Erasmus student, you're actually never alone. The Erasmus Office at IGU has been my first friend when I arrived in October. They have helped me with every issue that I met and more. If I had a problem with a course they were the first to help me. And all in all, no Erasmus experience is complete without exploring the culture and life of the country. I saw amazing places in Istanbul and have made a couple of good friends that have made the experience enjoyable despite the pandemic restrictions. That is why Erasmus might be the best experience for you.

Tabacu Andrei Marian,
Romania,
The Bucharest University of Economic Studies

The Erasmus+ Experience

My name is Margot and I come from France where I studied Mechanical at the Ecole Nationale d'Ingénieurs in Tarbes (ENIT). I studied at Istanbul Gelisim University as an Erasmus student during the fall semester of 2020.

My school in France has a partnership with the Istanbul Gelisim University in Turkey and in many other countries. I chose this University because I wanted to visit Turkey which is a beautiful country and also because I could take classes about architecture which I cannot do in my school. As a matter of fact, I joined the faculty of Engineering and more specifically the departments of Civil Engineering and Architecture. I chose courses from both of these departments that complement each other. Unfortunately, all my classes were online this semester because of the pandemic situation. Indeed, the lecturers were really helpful when I had questions about the class or the homework. Another point which I appreciated during my stay was the good support from the Erasmus Office.

Margot Granier,
France,
The Ecole Nationale Ingenieurs de Tarbes (ENIT)

HEALTH, CULTURE AND SPORTS

Music Club

With 14 board members and currently more than 500 members, Music Club is one of the most crowded and active clubs in Istanbul Gelişim University. It is also a club that has taken part in numerous activities and shows during the academic year.

On February 8, we got together with the people in a nursing home, chatted, sang, and had fun with them during our nursing home activity, which we organized jointly with the Industrial Engineering Club of our university. As Music Club students, we were both happy and proud to organize an event for the elderly. The students of our club, who also sang the songs that the residents of the nursing home requested, stated that they had done a great job at the end of the event and at the same time, it was a privilege to be an active member of the Music Club.

It has always been an honor for us to take part in these kinds of social responsibility projects. As young people, we have not forgotten the elderly in these isolated days. Our event was also broadcast on newspapers and television channels. (CNN TÜRK, Milliyet)

We organized an event for International Working Women's Day on March 8. Thanks to this event, which we organized jointly with the Support Club for LÖSEV, we noticed how much we missed singing face to face, and we had the opportunity to make the mothers who sell their handicrafts in LÖSEV shops to contribute to LÖSEV smile.

Our club continues to form new and strong ties with the growing music family every year. The musical friendship that offers all our members the opportunity to undertake duties and perform contributes us.

Our close relation with other clubs and participating in almost every event binds us to music more day by day. We are very happy to support the other clubs and friends and to do joint work. We hope that we will sing songs face to face again.

Aviation Club

In our events held in March, the people we invited periodically shared their experiences with us, talked about how they moved forward in the aviation industry and gave us some ideas on how to enter the sector. Together with aviation students, we reach out to many people and arouse interest on aviation. As an example, we organized an event for the students who study in the Department of Civil Aviation and Cabin Services on Instagram and invited Flight Attendant İrem AYDIN who is also a graduate of our university to make students feel closer to the speaker. We also invited the well-known Air Traffic Controller Emin SÜME to share his knowledge with us. We conducted informative live broadcasts with Aviation Psychologist Nihan KURNAZ ÖRÜKLÜ, who works on interview processes, strengthening psychological resources and the importance of teamwork in aviation. We use our Instagram account actively to organize events and this increases the interaction.

As the Aviation Club, one of our biggest goals is to reach people in aviation and touch their lives to some extent.

CAREER AND STUDENTS

Preparing for an Interview

Employers prepare direct and clear questions to understand if the candidates have necessary qualifications and to get detailed answers. Before the interview, it can be useful to get prepared to answer these questions in detail and correctly.

The most important point for preparing for interviews is getting more information about topics which are important for the employers and their expectations. You can kindly find below what the companies usually expect from their candidates.

- Effective communication skills: reporting, oral communication, presentation techniques, persuasion skills, self-expression
- Creativity
- Problem solving skills
- Good teamwork skills
- Planning, organization, and information management skills
- Being able to control stress and have positive attitudes
- Adapting to the changes quickly
- Being able to create social networks and develop relationships
- The quality of leadership (body language, personal image and self-confidence)
- Take initiative and responsibility
- Analyzing and decision-making skills

Preparing for an Interview

What to Do Before the Job Interview:

- Get more information about the company
- Learn what the company expects from you
- Think on your abilities and behaviors
- Work on the potential questions and rehearse your answers
- Dress up appropriately for the interview

THE INTERVIEW CONDUCTED BY THE HUMAN RESOURCES DEPARTMENT OF ALBAYRAK HOLDING AND THE EXPERIENCES OF OUR STUDENTS

Berfin TETİK

New Media and Communication Systems

The interview we had with Mr. Bilal was a bit stressful since it was my first interview, and for this reason, it was an important experience for me. In addition, I learned better what to improve in order to reach my professional goal. It was a useful interview as it enabled me to know what problems I will encounter when applying for a job in the future. Now, I know that I should research the company I will apply to. It also helped me express myself better.

Eda Nur BATTAL

Interior Architecture

The interview simulation activity, which was carried out by the Human Resources Directorate of Albayrak Holding, was good for me and reduced my anxiety for the future interviews. The interview was my first experience, and it was very useful. In the interview, I learned what to pay attention to and it allowed me to see the aspects I needed to improve.

gelisim.edu.tr

Elit Berfin Aykaç

International Trade

First of all, I would like to thank my teachers who helped me attend this interview and hold me up as an example. It was a pleasant and efficient interview process for me. I would also like to thank Ms. Şenman who helped us in this process.

Hilal Ünal

International Trade and Business

Thanks to the interview simulation that I participated in with the support of the Career Development Center, I noticed my shortcomings in preparing a resume and got detailed information about the factors I should pay attention to.

INTERNATIONAL STUDENTS

International Students

Istanbul Gelisim University International Student Office (ISO) has been coordinating the international student activities of Istanbul Gelisim University since January 2018. ISO contributes to the achievement of our university's goals of becoming a world university by providing associate/undergraduate and graduate education to international students from 97 different countries in a very short time. ISO provides services in the Rectorate Building with a total of 13 employees, including a director, a coordinator, 2 vice directors, 2 specialists, 3 consultants, and 4 student assistants. Our team has a multinational structure composed of different nations such as Afghanistan, Azerbaijan, Kosovo, Nigeria, Senegal, Syria, Tajikistan, Turkmenistan, and Turkey. Each of our employees can speak at least three languages, so international students who prefer our university are offered the opportunity to express themselves more easily in a total of 16 languages. As a result of the importance given to internationalization policy, our university has completed recognition processes from the states of Iraq, Yemen, Palestine, and Jordan. Besides, recognition processes are continuing for Lebanon, Iran, and Kuwait States.

PRECAUTIONS AGAINST COVID-19

COVID-19 and Precautions to Take

As of March 11, 2020, declared by the World Health Organization, we have been experiencing a pandemic process due to COVID-19 infection. As in all major epidemics in the past, protective measures are very important in the fight against this epidemic. Basic hygiene conditions and hand hygiene, maintaining social distance, using masks and applying the vaccine are our most important protective measures. In particular, vaccines are extremely safe biological products; Before the epidemic, they were very precious in the prevention of infant and child deaths. During epidemics, “health communication” and “health literacy” are important; It is important that we get the right information from the competent institutions about the whole epidemic process, and especially about the vaccine, and that we get our vaccines by making the right decisions.

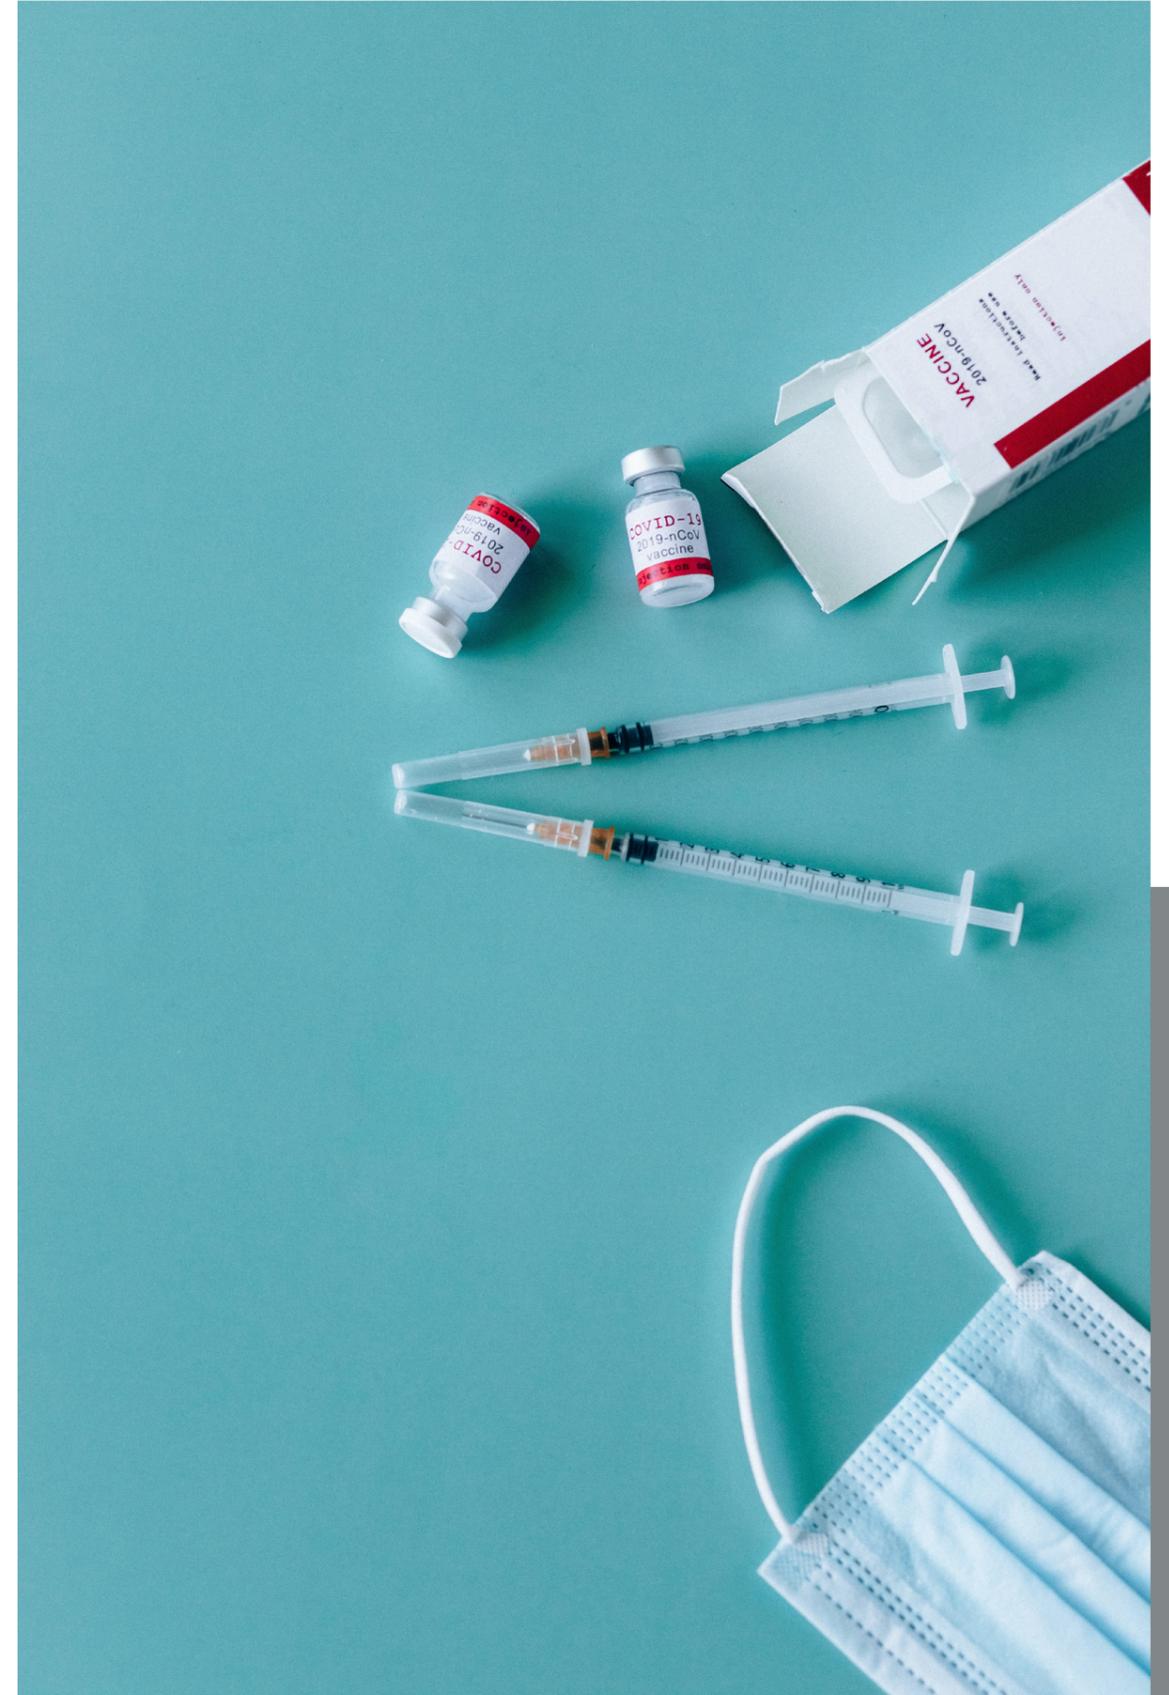

Vaccines are among the greatest achievements of medicine to humanity and have saved millions of lives to date.

*****VACCINE IS OUR VERY IMPORTANT POWER IN CONTROLLING INFECTIOUS DISEASES**

Let's not forget that;

“When each individual realizes his/her self-responsibility to protect himself/herself, in fact, he will protect the whole society, starting with his relatives.”

**Assistant Professor Nurten ELKİN
Health Sciences Faculty,
Child Development Department Head
Public Health Specialist**

THINGS TO KNOW

ABOUT NEW CORONAVIRUS

All necessary measures are taken for the **coronavirus** revealed in Turkey and the World at **Istanbul Gelisim University**. **Things to know about coronavirus are as follows:**

What are the new coronavirus symptoms?

- The most common symptoms are **fever, cough and respiratory distress**.
- In severe cases, **pneumonia, severe respiratory failure, kidney failure and death** may occur
- Incubation period is between **2 and 14 days**.

How is the virus transmitted?

- It can be transmitted by the contact of the droplets caused by **coughing and sneezing** with the contact of the **mouth, nose and eyes** of other individuals in certain environment and by touching the surfaces where the droplets adhere and taking hands **into the mouth, nose or eyes**.

What to do to be protected from the virus?

- When **coughing or sneezing**, the mouth and nose should be covered with a **disposable tissue**, if there is no handkerchief, the mouth should be closed with the **upper sleeve or elbow**, not with the palms.
- **Handshaking and hugging** should be avoided.
- **Mouth, nose and eyes** should not be touched with dirty hands.
- Hands must be washed for **at least 20 seconds** in accordance with the **Handwashing Instructions** found in the toilets. In the absence of water and soap, **alcohol-containing hand antiseptics** should be used. **Cologne of 70-80 degrees** also serve as disinfectants.
- Offices and classrooms must be **ventilated hourly**.
- Places frequently used by many people such as common areas and door handles should be **disinfected every 2 hours**.
- Hands **must be washed** after using **public transportation**.
- Because the virus progresses faster in people with low immune system; **a balanced and healthy diet** is required. Foods **must be washed thoroughly** before consumption.

What to do if there are symptoms?

- If you have come from countries with infections **in the past 14 days**, apply to the **nearest healthcare facility** by wearing a **surgical mask**.
- If you are **coughing, have a fever and have difficulty at breathing**, apply to the **nearest healthcare facility** by wearing a **surgical mask**.
- **Always wear your mask** when you are in the same room with a **person who is recommended insulation** at home.
