Investigation of Factors Affecting Academic's Destination Preferences During the Covid-19 Pandemic Process

Determining the Awareness Level of Integrated Reporting in SMES: A Research in İstanbul

11 THOUSAND 822 GRADUATES THREW CAPS

OCTOBER 4

2021

University graduation ceremonies, which could not be held due to the pandemic, started to be organized within the scope of coronavirus measures. Thousands of young people graduating from universities will either enter business life or proceed on an academic path. Holding its 10th and 11th graduation ceremonies, Istanbul Gelisim University (IGU) graduated 11,822 alumni from 129 different programs. During the 10-day graduation ceremonies, many faculties, institutes and college graduates of the university threw their caps.

At the graduation ceremony held on the campus of the university, Gelisim Tower, the young people who took the stage in sections received their diplomas. Speaking at the ceremonies held in accordance with the mask and social distance rule within the scope of coronavirus measures, faculty deans and school principals congratulated the graduating students and said that they were happy to meet with the students for the last time at the graduation ceremony, albeit delayed.

STUDENTS COMPLETED THEIR AVIATION TRAINING

OCTOBER 4

2021

The increase in private aviation companies and the rapid growth and development process in air transportation bring the need for qualified personnel. Within the framework of the cooperation between the Council of Higher Education (CoHE) and the Directorate General of Civil Aviation (DGCA), students who graduate with the education received at universities with the “Recognized School” certificate, which is owned by only a limited number of higher education institutions in Turkey, gain many privileges.

A CERTIFICATE FROM RECOGNIZED SCHOOL

Aviation training, which could not be held due to the pandemic, was completed within the scope of coronavirus measures. The students of Istanbul Gelisim University (IGU) Faculty of Applied Sciences Department of Aircraft Maintenance and Repair and Gelisim Vocational School Department of Aircraft Technology, which has the ‘Recognized School’ certificate, successfully completed the “Aircraft Technical SHY 147 and SHY 66 TASK Application Trainings.

NURİ SEZER'S BOOK 'SYMMETRIC ILLUSTRATION' PUBLISHED

OCTOBER 4

2021

Illustrator Asst. Prof. Nuri Sezer's 'Symmetric Illustration' has been published. Stating that there is an intercultural connection in illustration, Sezer said, "An illustration that carries the common values of cultures will have an impact on the people it communicates with."

From Istanbul Gelisim University (IGU) Faculty of Fine Arts (GSF) Department of Graphic Design, Lecturer Nuri Sezer's book "Symmetric Illustration" has been published by Istanbul Gelisim University Press.

Emphasizing the place of art in human life, **Asst. Prof. Nuri Sezer said**, "Art is one of the most important phenomena that affect people all over the world and activate their senses to see, hear and feel. Everyone has a music, a picture that they love and feelings they get from them. They are the most important factors that distinguish humans from other living things. Unfortunately, our society's view of art is not very healthy and this view shows the lack of importance given to visuality."

ONE IN THREE PEOPLE AGED 65 AND OVER HAS A FALL ACCIDENT EVERY YEAR

OCTOBER 6

2021

Physiotherapist Gülşah Konakoğlu said that according to the World Health Organization (WHO), the biggest health problem in the elderly is determined as “**falling down**”, and that one out of every three individuals aged 65 and over in Turkey experiences falling down accident every year.

Falling is one of the minor accidents that usually happen to children and the elderly, especially in the home environment. Although it is perceived as insignificant, experts occasionally warn about health problems that may occur afterwards. In this sense, Gülşah Konakoğlu, who is lecturer at Istanbul Gelisim University Department of Physiotherapy and Rehabilitation, also touched upon the remarkable details that emerged as a result of the research conducted on falls by the World Health Organization. Physiotherapist Gülşah Konakoğlu said

that the biggest health problem, especially in the elderly, occurs as a result of slipping according to this report. Moreover, one third of individuals over the age of 65 slips and falls down every year according to the research conducted in Turkey.

THINGS TO KNOW

ABOUT NEW CORONAVIRUS

All necessary measures are taken for the **coronavirus** revealed in Turkey and the World at **Istanbul Gelisim University**. **Things to know about coronavirus are as follows:**

What are the new coronavirus symptoms?

- The most common symptoms are **fever, cough and respiratory distress**.
- In severe cases, **pneumonia, severe respiratory failure, kidney failure and death** may occur
- Incubation period is between **2 and 14 days**.

How is the virus transmitted?

- It can be transmitted by the contact of the droplets caused by **coughing and sneezing** with the contact of the **mouth, nose and eyes** of other individuals in certain environment and by touching the surfaces where the droplets adhere and taking hands **into the mouth, nose or eyes**.

What to do to be protected from the virus?

- When **coughing or sneezing**, the mouth and nose should be covered with a **disposable tissue**, if there is no handkerchief, the mouth should be closed with the **upper sleeve or elbow**, not with the palms.
- **Handshaking and hugging** should be avoided.
- **Mouth, nose and eyes** should not be touched with dirty hands.
- Hands must be washed for **at least 20 seconds** in accordance with the **Handwashing Instructions** found in the toilets. In the absence of water and soap, **alcohol-containing hand antiseptics** should be used. **Cologne of 70-80 degrees** also serve as disinfectants.
- Offices and classrooms must be **ventilated hourly**.
- Places frequently used by many people such as common areas and door handles should be **disinfected every 2 hours**.
- Hands **must be washed** after using **public transportation**.
- Because the virus progresses faster in people with low immune system; **a balanced and healthy diet** is required. Foods **must be washed thoroughly** before consumption.

What to do if there are symptoms?

- If you have come from countries with infections **in the past 14 days**, apply to the **nearest healthcare facility** by wearing **a surgical mask**.
- If you are **coughing, have a fever and have difficulty at breathing**, apply to the **nearest healthcare facility** by wearing **a surgical mask**.
- **Always wear your mask** when you are in the same room with **a person who is recommended insulation** at home.

PROTECTION AGAINST VIRUS IS IN OUR HANDS

THE MOUTH AND NOSE SHOULD BE CLOSED WITH PAPER TOWEL DURING COUGHING AND SNEEZE. IF YOU DO NOT HAVE ANY WIPE, THE INSIDE OF THE ELBOW SHOULD BE USED.

CLOSE CONTACT SHOULD AVOID LIKE HANDSHAKE AND HUGGING.

IT SHOULD BE STAYED AWAY FROM CROWDED ENVIRONMENTS.

DO NOT TOUCH THE MOUTH, NOSE AND EYES WITH DIRTY HANDS.

HANDS MUST BE WASHED WITH WATER AND NORMAL SOAP FOR AT LEAST 20 SECONDS.

ALCOHOL CONTENT HAND ANTISEPTICS SHOULD BE USED IN CASE OF THERE IS NO WATER AND SOAP.
