## ELECTRICITY IS MOSTLY USED IN HOUSES!

OCTOBER 14 / 2022

The construction sector, which is one of the sectors that have the greatest impact on the environment, is being reshaped with the concepts of ecological, economic and socio-cultural sustainability. Istanbul Gelisim University Faculty Member Architect **Dr. Parvin Heidari** underlined that energy consumption is mostly used in residences after industry in our country. She also stated that the evaluations applied to ensure that the buildings are eco-friendly and energy efficient are of great importance.

## PROMINENT EAR AESTHETICS SHOULD BE DONE BEFORE STARTING PRIMARY SCHOOL!

OCTOBER 10

2022

The appearance of the “prominent ear”, which occurs due to the detachment of the auricle or the developmental disorder of the ear cartilages, can be corrected by surgery. IGU Otorhinolaryngology Specialist **Asst. Prof. Dr. Başak Çaypınar Eser** suggested that the operation be performed before starting primary school.

The “prominent ear” image, which does not pose a problem in the body’s general functioning and creates aesthetic and psychological discomfort, provides the opportunity for operation with the development of modern medicine. This common problem can cause psychological disorders, particularly in school-age children. Asst. Prof. Dr. Başak Çaypınar Eser, an Ear Nose and Throat Specialist from the Audiology Department of the Faculty of Health Sciences of Istanbul Gelisim University (IGU), stated that

the “prominent ear” aesthetic is a surgery with a high satisfaction rate.
