NEW TREND: NEWBORN NURSING

JULY 26

2022

Parents who had just a baby are worried about the baby's care, particularly after leaving the hospital. Mothers and fathers who want to take care of their baby without harming it receive home newborn care services after birth. **Asst. Prof. Dr. Bahar Nur Kanbur**, a faculty member in the Department of Nursing at Istanbul Gelisim University (IGU), gave information about how to care for a newborn baby and newborn nursing.

Newborn care is a very difficult process for both parents and babies. The newborn nurses provide support on how to meet all the needs of the baby and the mother during the first 28-day period, starting with the postpartum hospitalization and the mothers and fathers being alone with the baby.

TOOTH INFLAMMATION CAN CAUSE DEATH IF NOT TREATED PROMPTLY!

JULY 25 / 2022

The inability of people with a toothache to do their daily work and to experience sleepless nights negatively affects their quality of life. With inflammation in the aching tooth, most of the time, the person needs to use antibiotics. Stating that inflammation can become chronic and cause different health problems if not treated, **Prof. Dr. Seref Ezirganlı** pointed out that the inflammation should be dried.

Inflammation is a response of the body's defense system to foreign substances, trauma, harmful chemicals, microorganisms such as bacteria and viruses. Inflammation plays an important role in the control of infectious diseases and healing of wounds. Inflammation occurs in two different forms, acute and chronic. While acute inflammation develops rapidly within a few

hours or a few days, chronic inflammation develops slowly, taking weeks. If acute inflammations are not treated, they become chronic over time. bacteria and viruses. Inflammation plays an important role in the control of infectious diseases and healing of wounds. Inflammation occurs in two different forms, acute and chronic. While acute inflammation develops rapidly within a few hours or a few days, chronic inflammation develops slowly, taking weeks. If acute inflammations are
