GENERAL INFORMATION

FACULTY OF ECONOMICS, ADMINISTRATIVE AND
SOCIAL SCIENCES

PREFACE

Prof. Dr. Kenan AYDIN

Dear Students,

As you know, the Kahramanmaraş-centered earthquake that occurred on February 6 and affected 11 provinces caused great destruction. We lost tens of thousands of our people. Our pain is great. I wish God's mercy on those who lost their lives and a quick recovery for the injured. Sorry for our loss.

Dear Youngsters,

Just as the previous industrial revolutions caused radical and radical changes and transformations, the fourth industrial revolution (Industry 4.0) we are experiencing causes similar changes and transformations. Industry 4.0, on the one hand, reveals new professions, on the other hand, it changes the way of doing business in every field. Today, competition in all sectors is based on information and technology. Only businesses that can access information and use technology will be able to compete. Access to information is relatively easy nowadays. However, having knowledge alone is not enough. It is more important to be able to analyze the information or data it can access correctly, to draw meaningful conclusions from it and to present it to the benefit of the business.

In order to compete in the globalizing world, businesses need qualified employees who can quickly adapt to the needs of the industry, use up-to-date technologies, and are equipped with knowledge and skills. It is extremely important to meet the qualified employee needs of businesses. At this point, universities have a great responsibility. Universities should review their education and training programs and implement education and training programs that are compatible with the needs of the industry. These programs should be developed to meet the needs of the industry and compete with the world.

Istanbul Gelişim University started its studies by identifying this need at the very beginning and has achieved the success of being the university with the most accredited program in Turkey. Collaborating with over 130 world universities, Istanbul Gelişim University strives to graduate associate, undergraduate, graduate and doctoral students equipped with the knowledge and skills to compete internationally.

Best regards,

Prof. Dr. Kenan Aydın
Dean of the Faculty of Economics, Administrative and Social Sciences

ABOUT US

History

The Faculty of Economics, Administrative and Social Sciences became a part of the Gelişim family with 5 undergraduate programs in the 2011-2012 academic year, showed a rapid development over time and has reached 25 undergraduate programs today. The departments of our faculty have successfully passed the AQAS audit process, which is documented by the education standards of European Union countries, breaking new ground in Turkey. There are double major, minor and lateral transfer opportunities in each department. In addition, the advanced social opportunities provided by 17 student clubs and more than 100 Erasmus+ and other bilateral agreements are offered to the benefit of our students.

Mission and Vision

The most basic mission of the Faculty of Economics, Administrative and Social Sciences is to be a leading faculty in its field that continuously improves the quality of education, leads scientific developments by producing scientific knowledge, develops national and international projects, is beneficial to society, and meets the needs of the changing world.

Adopting the idea that education should have a universal perspective, IGU is an innovative university and an innovative educational institution that updates its education models according to the needs of the day, provides personal and social development opportunities to young generations as well as professional knowledge, and gives them the ability to understand and interpret the world. In this context, qualified education opportunities are offered to our students in our departments, which are examined in detail by international expert committees appointed by organizations such as AQAS, AHPGS, PEARSON, ABET and are entitled to be accredited.

GENERAL INFORMATION

DEPARTMENTS OF FACULTY OF
ECONOMICS, ADMINISTRATIVE AND
SOCIAL SCIENCES

AMERICAN CULTURE AND LITERATURE (ENGLISH)

Total Number of Students: 0
Opening Year of the Department:
Accreditation Status:

Purpose of the Department

The Department of American Culture and Literature aims to educate critics and researchers in the field of English literature with a focus on the United States. Over the course of four years, students will develop critical thinking and composition skills using contemporary literary theory while becoming familiar with the works of writers and poets representing diverse traditions. Our department and Literature adopts a student-centred approach to education that emphasises creativity, participation and identity-based textual analysis.

Notable Courses:

- American Short Story
- Enlightenment in American Culture and Literature
- American Culture and History
- Postcolonial Literature

ECONOMICS AND FINANCE (ENGLISH)

Total Number of Students: 193
Opening Year of the Department: 2014
Accreditation Status: 2018-2024

Purpose of the Department

The aim of the Department of Economics and Finance is to educate qualified leaders who can adapt to the dynamic structure of the ever-developing and changing global business life, who can foresee and manage the opportunities and threats that arise, who are equipped with economics and finance, who have sustainable environment and ethical sensitivity in order to meet the needs of managers at all levels of both private and public sectors.

Notable Courses:

- Sustainable Development and Growth
- Monetary Policy
- Turkish Economy
- Introductory To Python for Data Analysis

ECONOMICS AND FINANCE

Total Number of Students: 135

Opening Year of the Department: 2014

Accreditation Status: 2018-2024

Purpose of the Department

The aim of the Department of Economics and Finance is to educate qualified leaders who can adapt to the dynamic structure of the ever-developing and changing global business life, who can foresee and manage the opportunities and threats that arise, who are equipped with economics and finance, who have sustainable environment and ethical sensitivity in order to meet the needs of managers at all levels of both private and public sectors.

Notable Courses:

- Digital Money and Payment Systems
- Introductory To Python for Data Analysis
- Investment Theory and Portfolio Management
- Financial Institutions and Markets

THE CUSTOM AND BORDER MANAGEMENT

Total Number of Students: 0

Opening Year of the Department:

Accreditation Status:

Purpose of the Department

The aim of the Custom and Border Management Department is to educate qualified individuals with theoretical and practical knowledge and skills who provide border control in accordance with their knowledge by examining all entry and exit transactions made in the country within the framework of customs legislation and provide guidance to domestic and foreign companies on import-export in order to protect customs standards.

Notable Courses:

- Customs Official Correspondence and Report Writing
- Current Problems in Customs
- Customs Procedures and Practices
- Case Studies in World Customs

PUBLIC RELATIONS AND PUBLICITY

Total Number of Students: 225
Opening Year of the Department: 2014
Accreditation Status: 2018-2024

Purpose of the Department

As the department, we aim our graduates to be individuals who can design and implement campaigns, develop strategies, create the communication language of the institution in which they undertake communication activities, position the communication with the target audience correctly, develop analytical thinking skills, solve problems quickly and rationally in order for institutions and organisations to communicate accurately and effectively with all their stakeholders and target audiences.

Notable Courses:

- Online Advertising
- Digital Content Production
- Digital Marketing
- Civil Society and Public Relations

AVIATION MANAGEMENT (ENGLISH)

Total Number of Students: 447

Opening Year of the Department: 2016

Accreditation Status: 2018-2024

Purpose of the Department

The aim of the Department of Aviation Management (Eng.) is to provide students with the necessary theoretical and practical knowledge in the fields of aviation and management and to train them as qualified individuals who can successfully operate in many departments such as flight operations, safety management, marketing, ground services in aviation organisations. The fact that the language of instruction of the department is entirely in English gives students an advantage in the aviation sector where English is the main language.

Notable Courses:

- Sustainability Management in Aviation
- Model Airplane Manufacturing
- Aircraft Accidents and Case Investigations
- Postmodern Approaches in Aviation

AVIATION MANAGEMENT

Total Number of Students: 294

Opening Year of the Department: 2016

Accreditation Status: 2018-2024

Purpose of the Department

The aim of the Department of Aviation Management is to provide students with the necessary theoretical and practical knowledge in the fields of aviation and management and to train them as qualified individuals who can successfully operate in many departments such as flight operations, safety management, marketing, ground services in aviation organisations.

Notable Courses:

- Aviation Safety and Security
- Communication and Navigation Systems
- Sustainability Management in Aviation
- Airline Marketing

ENGLISH LANGUAGE AND LITERATURE (ENGLISH)

Total Number of Students: 375

Opening Year of the Department: 2016

Accreditation Status: 2018-2024

Purpose of the Department

The Department of English Language and Literature, which provides education at international standards, was established to train qualified human resources who know the English language with its literary and cultural richness and have advanced language skills.

Notable Courses:

- Literary Criticism and Theory
- Postmodern Literature
- Women's Literature
- Gender Studies

BUSINESS ADMINISTRATION (ENGLISH)

Total Number of Students: 604
Opening Year of the Department: 2013
Accreditation Status: 2018-2024

Purpose of the Department

The aim of the Department of Business Administration is to educate individuals who can stand out among their competitors thanks to the skills they have acquired in today's labour markets, where competition between businesses and individuals has increased considerably.

Notable Courses:

- Case Studies in Accounting
- Management Simulations
- E-Business and Platform Economy
- Project and Feasibility Analysis

BUSINESS ADMINISTRATION

Total Number of Students: 195

Opening Year of the Department: 2012

Accreditation Status: 2018-2024

Purpose of the Department

The aim of the Department of Business Administration is to educate individuals who can stand out among their competitors thanks to the skills they have acquired in today's labour markets, where competition between businesses and individuals has increased considerably.

Notable Courses:

- Case Studies in Accounting
- Management Simulations
- E-Business and Platform Economics
- Analysis and Evaluation of Investment Projects

LOGISTICS MANAGEMENT (ENGLISH)

Total Number of Students: 108

Opening Year of the Department: 2020

Accreditation Status: 2018-2024

Purpose of the Department

The aim of the Logistics Management (Eng.) department is to create competent people in the logistics branch of international trade. In today's world where international trade has no borders, graduates support the more effective management of international trade as individuals who will manage the process of supplying goods and services and delivering them to the buyer in the most optimum way.

Notable Courses:

- Foreign Trade Management
- International Trade
- Introduction to Logistics
- Customs Administration

LOGISTICS MANAGEMENT

Total Number of Students: 107

Opening Year of the Department: 2020

Accreditation Status: 2018-2024

Purpose of the Department

The aim of the Logistics Management department is to create competent people in the logistics branch of international trade. In today's world where international trade has no borders, graduates support the more effective management of international trade as individuals who will manage the process of supplying goods and services and delivering them to the buyer in the most optimum way.

Notable Courses:

- Foreign Trade Management
- International Trade
- Introduction to Logistics
- Introduction to Transport Management
- Customs Management

PSYCHOLOGY (ENGLISH)

Total Number of Students: 414

Opening Year of the Department: 2013

Accreditation Status: 2018-2024

Purpose of the Department

Within the framework of the programme, it is aimed to provide students with the theoretical and practical knowledge and skills that a good psychology graduate should have and to ensure that students have social and ethical responsibility.

Notable Courses:

- Introduction to Psychoanalysis
- Clinical Psychology
- Psychopathology
- Trauma and Crisis Psychology

PSYCHOLOGY

Total Number of Students: 626

Opening Year of the Department: 2012

Accreditation Status: 2018-2024

Purpose of the Department

Within the framework of the programme, it is aimed to provide students with the theoretical and practical knowledge and skills that a good psychology graduate should have and to ensure that students have social and ethical responsibility.

Notable Courses:

- Introduction to Psychoanalytics
- Clinical Psychology
- Psychopathology
- Trauma and Crisis Psychology

RADIO, TELEVISION AND CINEMA

Total Number of Students: 171

Opening Year of the Department: 2013

Accreditation Status: 2018-2024

Purpose of the Department

The Department of Radio, Television and Cinema directs its graduates in the relevant sectors of public and private institutions with a curriculum that combines theory and practice, the programme aims to train students to be competent and equipped to work in many professions such as producer, cameraman, cinematographer, director of photography, editing editor, presenter, reporter, photographer, script and copywriter.

Notable Courses:

- Film Production Management
- Script Techniques
- Film Readings
- Sound and Image Techniques

ADVERTISING

Total Number of Students: 52

Opening Year of the Department: 2020

Accreditation Status: 2018-2024

Purpose of the Department

The aim of the Advertising Department is to train students who can manage advertising campaign processes, master conventional and digital marketing and advertising strategies, know both theory and practice, and provide qualified labour force to the advertising sector. One of the primary objectives of the department is to provide graduates who can work in positions such as copywriter, content editor, strategist, advertising design specialist, art director, creative director, social media specialist in advertising agencies as well as in corporate communication units of state and private institutions and organisations.

Notable Courses:

- Graphic Production in Advertising
- Photo Applications in Advertising
- Photoshop Applications
- Advertisement Workshop

Notable Courses:

- Integration Theories and European Integration
- Turkish Political Life
- Regional Cooperation and International Organisations
- Current Issues in World Politics

POLITICAL SCIENCE AND INTERNATIONAL RELATIONS

Total Number of Students: 227

Opening Year of the Department: 2011

Accreditation Status: 2018-2024

Purpose of the Department

The Department of Political Science and International Relations was established within the Faculty of Economics, Administrative and Social Sciences of Istanbul Gelisim University with the aim of internationalisation in education in order to raise professionals who create awareness with a quality, innovative and competitive education approach. The Department of Political Science and International Relations, whose medium of instruction is Turkish, examines many areas such as the general characteristics of state and non-state international actors, institutions and structures at the global and regional level, the political, economic and social changes of these actors and structures and their relations with each other, developments and innovations in the world and Turkey, important international organisations such as the EU and the United Nations, different regions, especially Eurasia and the Middle East, and the internal dynamics and foreign policies of the dominant powers of the international system, especially the USA and Russia. By equipping students to conduct scientific research, develop critical approaches and create a theoretical framework, the programme offers students the opportunity to develop themselves in the long term for their personal studies. During the four-year undergraduate education, students gain national and international acquisitions, knowledge and skills in the fields of politics, economics and diplomacy, equipped with theoretical and practical knowledge supported by up-to-date and technological resources.

Notable Courses:

- Integration Theories and European Integration
- Turkish Political Life
- Regional Cooperation and International Organisations
- Turkish Foreign Policy

SOCIOLOGY

Total Number of Students: 135
Opening Year of the Department: 2013
Accreditation Status: 2018-2024

Purpose of the Department

The Department of Sociology aims to enable its graduates with sociological imagination to objectively analyse phenomena, meanings and processes in the global world according to the sustainability approach and the principle of cultural relativity, to produce solutions to problems by using research design and project design skills and information-communication technologies, and to have social communication skills and professional competencies.

Notable Courses:

- Quantitative Research Methods
- Qualitative Research Methods
- Migration, Ethnicity and Identity
- Sociology of Gender

TOURISM GUIDANCE

Total Number of Students: 135

Opening Year of the Department: 2016

Accreditation Status: 2018-2024

Purpose of the Department

The aim of the Department of Tourism Guidance is to train qualified professional tourist guides needed by the tourism industry by providing advanced knowledge and equipment in areas such as tourism, history, art history, archaeology, religion, mythology, tourism geography, guidance professional knowledge, tourism legislation to each student who completes a four-year undergraduate education.

Notable Courses:

- History of Religions
- Museums in the world and in Turkey
- Archaeology
- City and Civilisation

TURKISH LANGUAGE AND LITERATURE

Total Number of Students: 170

Opening Year of the Department: 2016

Accreditation Status: 2018-2024

Purpose of the Department

The Department of Turkish Language and Literature, which adopts an innovative teaching approach in accordance with internationalisation standards, aims to provide its students with competence in fields such as the history of Turkish language, Turkish and world literature, sociology of literature and to educate its students as individuals who have deeply assimilated national language and culture.

Notable Courses:

- Ottoman Turkish
- Turkish Mythology
- Postmodernism
- Sufi Literature

INTERNATIONAL TRADE AND FINANCE (ENGLISH)

Total Number of Students: 202

Opening Year of the Department: 2020

Accreditation Status: 2019-2024

Purpose of the Department

The Department of International Trade and Finance (Eng.) primarily aims to educate future leaders who can provide fast and accurate solutions to the problems encountered in working life, who can adapt to changing world conditions and requirements, and who can easily use technological innovations.

Notable Courses:

- Economic Integration
- Introduction to Globalization
- International Trade Organizations
- Globalization and Income Distribution

INTERNATIONAL TRADE AND FINANCE

Total Number of Students: 103
Opening Year of the Department: 2020
Accreditation Status: 2019-2024

Purpose of the Department

The Department of International Trade and Finance primarily aims to educate future leaders who can provide fast and accurate solutions to the problems encountered in working life, who can adapt to changing world conditions and requirements, and who can easily use technological innovations.

Notable Courses:

- Economic Integration
- Introduction to Globalisation
- International Trade Organisations
- Globalisation and Income Distribution

INTERNATIONAL TRADE AND BUSINESS

Total Number of Students: 88

Opening Year of the Department: 2020

Accreditation Status: 2019-2024

Purpose of the Department

Through the theme of Sustainable Strategic Management, it is aimed to train international entrepreneurs, managers and experts in the field of international business and trade, who can solve problems with fast and accurate methods, have ethical values and social responsibility awareness.

Notable Courses:

- Digital Marketing and Trade
- International Business
- International Marketing
- Organisational Culture and Leadership

NEW MEDIA AND COMMUNICATION

Total Number of Students: 121

Opening Year of the Department: 2020

Accreditation Status: 2019-2024

Purpose of the Department

The primary aim of the programme is to provide students with competitive, innovative, entrepreneurial knowledge and skills in areas such as communication and society, media history, new media and traditional media, virtual reality, wearable technologies, artificial intelligence, new communication technologies, new media and publishing, internet journalism, new media policies, viral marketing, interactive media, digital culture.

Notable Courses:

- Basic Programming
- Interaction Design
- Content Generation
- Web Design

MANAGEMENT INFORMATION SYSTEMS

Total Number of Students: 296
Opening Year of the Department: 2017
Accreditation Status: 2018-2024

Purpose of the Department

The aim of the programme is to provide knowledge, skills and professionalism strategy in areas such as data science competence in information technologies and related sectors, designing and managing management and information systems, information technologies, database and applications, data and text mining, e-business and commerce, data analysis and cloud computing systems.

Notable Courses:

- System Analysis and Algorithms
- Introduction to Database
- Network Design
- Database Management

ECONOMIC ADMINISTRATIVE AND SOCIAL SCIENCES AND SUSTAINABILITY

Istanbul Gelisim University aims to contribute to creating a sustainable world by disseminating perceptions, attitudes, values, and behaviors toward sustainability. We have conducted many studies at Istanbul Gelisim University Faculty of Economics, Administrative, and Social Sciences.

DECENT WORK AND ECONOMIC GROWTH	REDUCING INEQUALITIES
<p>Title: Achieving environmental sustainability through green transformational leadership policy: Can green team resilience help?</p> <p>Objective: To evaluate that green transformational leadership positively affects green job engagement and green team resilience and that green job engagement fully mediates this relationship.</p>	<p>Title: Short Story Contest within the Scope of Yunus Emre and the Year of Turkish</p> <p>Purpose: Short story competition that includes the themes of "tolerance, self-sacrifice, patience, and love," which are the essential elements of Yunus Emre's philosophy.</p> <p>Result: Within the scope of reducing inequalities, students studying in priority development regions were allowed to participate in the competition to empower everyone regardless of age, gender, disability, race, ethnicity, religion, economic or other status and support their social, economic and political inclusion.</p>
<p>Title: A Guiding Framework for Levels of Sustainability in Marketing</p> <p>Objective: To propose a guiding framework that can be useful for business enterprises and other relevant stakeholders in translating the potential of marketing disciplines into higher levels of marketing orientations and sustainable consumption patterns.</p> <p>Outcome: A suitable roadmap is presented for traditional growth-oriented and transitional firms that are stuck at the short-term positive marketing level and therefore need to include sustainability and competence as the most likely options for long-term competitive advantage.</p>	
<p>Title: Steel Wings Aviation Panel</p> <p>Purpose: Discuss sustainability in the aviation industry.</p> <p>Conclusion: The participants discussed the rapid and continuous growth of the aviation industry in the future.</p>	
<p>Title: Sustainability and Aviation Practices Graduate Course</p> <p>Purpose: A set of goals and commitment practices covering climate change, noise, and local air quality to be covered throughout the course to ensure a sustainable future.</p> <p>Outcome: Graduate students are competent in sustainable aviation</p>	

THE GLOBAL GOALS

Istanbul Gelişim University Community Service Coordinators and Aydın Doğan Vocational and Technical Anatolian High School Young Hands met in the Clean Beaches project. Our volunteer team, to which the students of our faculty participated, and the high school students, collected the garbage that was thrown unconsciously on the Garipçe beach and tried to clean the beach and create environmental awareness.

The Blockchain Club, where the students of our faculty are active, has carried out studies in Blockchain and Sustainability. At the event called Blockchain and Sustainability, organized with the participation of Dr. Çağla Gül ŞENKARDEŞ, the studies carried out for the ecological sustainability of Blockchain technology, and the measures that can be taken were discussed.

GRADUATES

Alumni Opinions

Bilal Akyıldız

GRADUATE OF THE DEPARTMENT OF INTERNATIONAL TRADE AND FINANCE

"Hello, I am Bilal Akyıldız..

I graduated from Istanbul Gelisim University International Trade Department this year. Of course, the graduation is not the end. Just like the excitement of coming from a city in the east to a valuable city like Istanbul, which has all kinds of opportunities, as in the rush from the first day we started university life to the final... The situation still remains the same. Since I knew that this journey to determine my targeted career line would not be easy, the restlessness and excitement of this path surrounded me from the very beginning. Firstly, we liked our department and then the lessons with the valuable teachers of our university. This showed me that choosing Istanbul Gelisim University was the right decision.

If you ask the reason why I chose the Department of International Trade; we have been in trade for as long as we can remember, I think the fact that it is international has fascinated me even more. Due to the recent increases in logistics, import-export rates and the increase in new trade opportunities, as well as my interest in economics and finance, I started my journey thinking that I could meet this in a wide range of international trade departments. Of course, since I was a pandemic victim like everyone else, it was not possible to get experience while studying. I took a big step into business life with the knowledge we received from our esteemed professors. Now, with the education I received, I carry out import-export operations in a logistics company and continue to patiently climb the career ladder. Just like the water flows and finds its way, vesselam. Thank you."

İlayda Koştur

GRADUATE OF THE DEPARTMENT OF MANAGEMENT INFORMATION SYSTEMS

"Hello, I am İlayda Koştur. I graduated from Istanbul Gelisim University, the Department of Management Information Systems this year. I think graduating seems like an end, but it is the beginning of our real story. Of course, we are still at the very beginning of the road. I started to evaluate the opportunities that I came across with graduation; I started to shape my career line that I dreamed of and targeted. Now let's come to my journey... I have always been a person who is prone to technology as long as I can remember. I was very excited when our paths crossed with the Department of Management Information Systems and I realised then that it would bring me closer to my goals. The fact that it was a new department and that I could choose between different sectors impressed me. Management Information Systems is a versatile department that promises a successful career journey. It both trains the managerial potential within you and makes it easier for us to keep up with the developing technology.

The reason why I chose to study this department at Istanbul Gelisim University was that we had effective professors in the field of Data Science. While providing us with in depth knowledge by showing the subject in 360 degrees in every dimension while making a transfer; their interactive way of drawing us into the course increased our command of the course. The projects we prepared in the light of the knowledge of our professors throughout my university life enabled me to step into the challenging business life in a ready way. Starting to work when I had not yet graduated was due to the fact that my department was new, developable and strong. Although my university life was a bit tiring and challenging, the moment I raised my diploma in the air, I realised that all the difficulties I experienced were actually steps towards my success. As Nikola Tesla said, Let the future tell the truth and evaluate everyone according to their works and achievements. Let today be theirs, but the future, for which I have worked so hard, is mine."

Gamze Yildirim

GRADUATE OF THE DEPARTMENT OF NEW MEDIA AND COMMUNICATION

"Hello,

I am Gamze Yildirim, I graduated from Istanbul Gelisim University, the Department of New Media in 2022. I have been interested in the digital world since my childhood, so choosing the New Media department was the biggest step for me. In my career journey, my esteemed professors in our department helped me to gain sufficient intellectual capacity in this field. They guided me to achieve theoretical and practical competence in the digital field. Istanbul Gelisim University offers its students a wide range of courses within the scope of the New Media Department. We have many different courses ranging from Basic Programming to Content Production. Apart from our curriculum courses, thanks to the elective courses within the scope of our department, I also had the opportunity to concentrate on the areas I want to improve myself. Our school also supported us to get to know the sector closely and network and gain different perspectives in the sector by organising conferences with industry-leading names that will contribute to us.

All these, with the contribution of Istanbul Gelisim University and my esteemed professors, prepared me for working life and enabled me to reach a sufficient level in theoretical and practical sense. Istanbul Gelisim University has always been an institution that stands behind us on the path of Development that values students. I am lucky to have taken the first step in my career journey with Istanbul Gelisim University. I hope that you will also choose Istanbul Gelisim University on the path of development and reach your dreams step by step...."

Selin Yilmaz

GRADUATE OF THE DEPARTMENT OF INTERNATIONAL TRADE AND BUSINESS &
DOUBLE MAJOR STUDENT

"Hello,

I am Selin Yilmaz. I am a graduate of Istanbul Gelisim University, Department of International Trade and Business. I am also a double major student in Aviation Management. Our school provides us with a wide range of opportunities to develop ourselves and realise our talents. The double major programme is just one of them. The double major programme is a programme that allows students who successfully manage their major programme to receive a diploma in a second major free of charge, that is, to study two departments at the same time. The double major programme offers many advantages to students. The first of these is that it provides us with the opportunity to improve ourselves in many ways by increasing our knowledge. Thanks to this programme, we can study two departments we are interested in at the same time and have the chance to gain different perspectives. Mastering different fields can contribute to us being more creative. In addition, doing a double major gives us different perspectives, as well as being better equipped against our competitors in the business world and having expertise in different fields can make us one step ahead of our competitors. Thanks to the double major programme, we can also have a stronger communication network. We can meet the valuable professors and fellow students in both departments that we study simultaneously. Therefore, we can increase the number of people we will be in contact with and ask for help in finding a job and in necessary situations. Participating in the double major programme will take us a long way in our career. In addition, our school is not limited to the double major programme, but also offers the career centre, Erasmus coordinatorship and alumni coordinatorship to our students. I would like to thank them for being very helpful for us to gain various experiences and to be employed after graduation and I invite everyone to gain this experience.."

Hatice Ayverdi

GRADUATE OF THE DEPARTMENT OF TURKISH LANGUAGE AND LITERATURE

"Hello, I'm Hatice Ayverdi,

I graduated from Istanbul Gelisim University, the Department of Turkish Language and Literature this year. I think graduating means leaving behind the student years of our life journey. As we progressed on our life journey, I and my fellow classmates have left the profession of being a student behind us as graduates. This will open new doors for us and we will get one step closer to our goals. From the earliest times, my goal has always been to become a teacher. I am happy that I am getting closer to this goal with my graduation, but I am also sad to leave my school and friends behind, where I spent four years. The Department of Turkish Language and Literature taught me to look at life from many different angles, to get to know people and to establish better communication with them. Most importantly, it taught me to know myself. I call it the most important thing because a person should know himself/herself so that he/she can get to know other people. I believe that literature has a soul, and words reflect this soul. When we write an article, everyone reflects their own part of this spirit. Everyone's writing is different, which reveals that literature is the art of changing and transforming. For four years, we have tried to understand this spirit of literature through our lessons and the activities we organised as the Language, Thought and Literature Club. Our teachers have always been our biggest supporters on this path. They taught us to look at life from brand new and different perspectives. On this path, I have also accumulated many beauties that will stay with me forever. As Yahya Kemal said, If the day has come to weigh anchor, a ship sailing to the unknown leaves this harbour. Our day to anchor has come, we set off to add new pages to our life journey. I had stories that I will remember every day of my four years with longing. I always say and will continue to say that I am glad to have been a part of Turkish literature since the first day. I want to say that our best days are the ones we have not lived yet because better days are ours..."

Kerem Atila

GRADUATE OF THE DEPARTMENT OF ECONOMICS AND FINANCE (ENG.)

"I am Kerem ATİLA, a recent graduate of the Department of Economics and Finance (Eng.). I started studying at Istanbul Gelisim University with the ÖSYM score I got in 2017. After 5 years of education, I graduated in the Spring semester of 2022. Since I graduated from foreign trade high school, I preferred this department because I aimed to work in the Banking and Finance sector. When I examined the curriculum, I aimed to be an inspector, financial advisor or a manager in the banking and finance sector or an academic in this field, so I finished my undergraduate education in the Department of Economics and Finance and started pursuing my master's degree. Before graduating, I benefited from Erasmus Student Mobility. Since I studied in the department with an accreditation, the similarity of the courses in most schools in Europe made the programme more attractive, providing diversity in terms of country and school selection. However, I waived due to health concerns related to the COVID-19 pandemic. I am currently working as an Office Clerk at the Dean's Office of the Faculty of Economics, Administrative and Social Sciences at Istanbul Gelisim University. I started working in the education sector because I thought it was more suitable to the field of Economics and Finance as far as the academy is concerned. After graduation, I aim to work in the Academy or in the Banking and Finance sector in Private or Public Sector. During my undergraduate education, I participated in various certificate programmes in order to stand out in my career by taking various trainings such as office programmes and leadership training for my personal development. I also participated in certified activities such as CV preparation and interview techniques with the help of my department."
