FACULTY OF FINE ARTS

PREFACE

Prof. Dr. Şükran Güzin ILICAK AYDINALP

Dear young people, dear students,

The existence process of art, which is the expression of creativity and imagination, is only possible with its artist. An artist is a person who assimilates, cares and adds value to art. At the same time, an artist is an individual who can interpret events, subjects or concepts differently, thinks differently, produces, designs and has the power to reflect.

At Istanbul Gelisim University Faculty of Fine Arts, we aim to enable our students to use their talents and to "make unique productions". Our students, who combine their working discipline with their talents and "who we strive to produce original works"; they are noticed in their own fields with the intensive training they receive.

Students who learn the knowledge and nature of the beautiful in the kitchen of the Faculty of Fine Arts, also have all the necessary applications and equipment to be ready for the sectoral life. Istanbul Gelisim University Faculty of Fine Arts students with advanced social skills and aesthetic perspective! Being a student of Istanbul Gelisim University is a privilege. Istanbul Gelisim University is an education platform that is almost intertwined with life with its activities, social life and responsibility projects.

Hoping to continue with you in the future with "development"...

With my love and respect to our students who will guide art, culture and communication.

ABOUT US

HISTORY

In the 2015-2016 academic year, 3 new departments were opened, namely "Gastronomy and Culinary Arts", "Interior Architecture", "Cinema and Television" in Istanbul Gelisim University Faculty of Fine Arts, which constantly changes and develops, takes into account national and international dynamics, and offers education at international standards to its students in a contemporary education approach. With the addition of these departments, the total number of undergraduate programs in IGU Faculty of Fine Arts has reached 7.

OUR MISSION

Each of our students from the Faculty of Fine Arts of Istanbul Gelisim University is treated as an individual who has the principles and values of contemporary world art, thinks creatively and uniquely, acts with the spirit of leadership and produces works that shape the future, who has the knowledge and philosophy of the works they produce, and who has been brought up in Istanbul Gelisim University. Seeing change and development as an indispensable element of his life, reflecting while doing, making a difference with what he reflects, connected to science and technology, able to solve problems, adapting to teamwork, connected to the future with love and hope, extremely sensitive to society and its environment, analytical, critical, rational thinking is to raise qualified individuals who carry the flag of success even further with its structure and professional competencies.

OUR VISION

To be the leader of quality and professional education by moving away from the standard education approach and to maintain this success globally. To reject pure teaching and remove the barriers to original and creative thinking, and to make the Faculty of Fine Arts one of the respected and leading educational institutions in the national and international arena under the roof of Istanbul Gelisim University. Our education program, our collaborations with universities and institutions, our creative and impressive projects, our research areas and our studies both contribute to the development and change of our country and make our university popular. It is to create training opportunities in Gelisim, by creating a large network with all the work done, going beyond the borders drawn.

GASTRONOMY AND CULINARY ARTS

Number of Students: 374

Opening Year of the Department: 2015

Number of Internship Days: 30+30=60

Accreditation Status: 2019-2024

Purpose of the Department

It aims to train successful and leading chefs, managers and experts in the field of the future, who know all the subtleties of Turkish and World culinary arts in the best way, have artistic sensitivity, and can compete in the national and international arena.

Some Lectures:

- World Kitchen
- Cooking Techniques
- Innovation and Creativity in Culinary Arts
- Food Geography and Routes

GRAPHIC DESIGN

Number of Students: 183

Opening Year of the Department: 2011

Number of Internship Days: 30+30=60

Accreditation Status: 2020-2026

Purpose of the Department

To train professional graphic designers who can realize all kinds of projects in the fields of typography and printed graphic design, develop solutions for the problems that arise during the design process of the project, and ensure that the design process is a sustainable design that is compatible with the environment and society.

Some Lectures:

- Contemporary Visual Design and Composition
- Typography
- Illustration
- Packaging Design

INTERIOR ARCHITECTURE

Number of Students: 300

Opening Year of the Department: 2015

Number of Internship Days: 30+30=60

Accreditation Status: 2019-2024

Purpose of the Department

As the first step of the lifelong learning process, it aims to train interior architects who can produce efficient, original, sustainable, new concepts, furniture and designs by transferring the professional, cultural and social knowledge they have acquired since the beginning of their undergraduate education to their professional lives.

Some Lectures:

- Interior Architecture Studio
- Furniture
- Materials of the Future
- Design and Branding

INTERIOR ARCHITECTURE AND ENVIRONMENTAL DESIGN

Number of Students: 514

Opening Year of the Department: 2011

Number of Internship Days: 30+30=60

Accreditation Status: 2019-2024

Purpose of the Department

In its four-year undergraduate education, as the first step of lifelong learning, it aims to train interior architects who are specialized in interior architecture and human-environment relations, who can develop innovative, original and sustainable new ideas about possible problems and different arrangements in the fields of design and planning of the interior space and its environment.

Some Lectures:

- Design Studio
- Human and Space Relationship
- Smart Buildings
- Environment of the Future

INTERIOR ARCHITECTURE AND ENVIRONMENTAL DESIGN(ENG)

Number of Students: 142

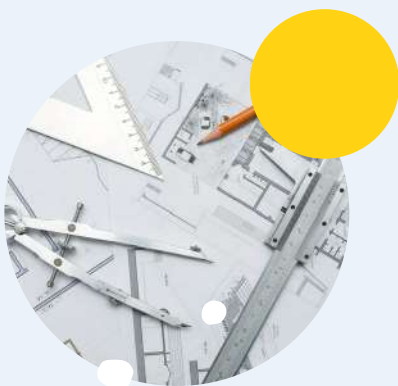

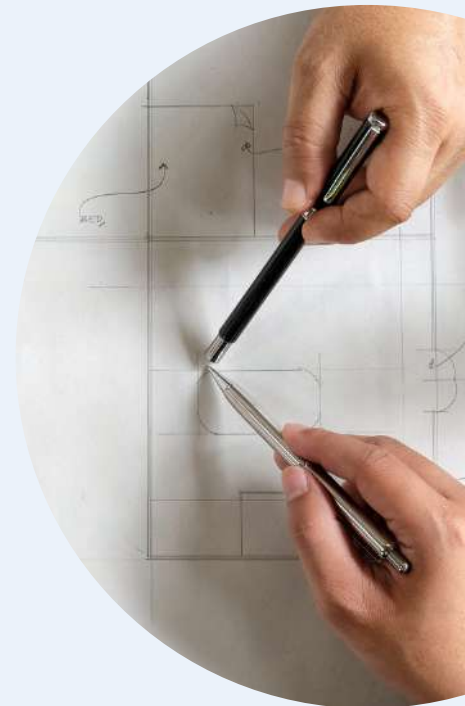

Opening Year of the Department: 2021

Number of Internship Days: 30+30=60

Accreditation Status: -

Purpose of the Department

In its four-year undergraduate education, as the first step of lifelong learning, it aims to train interior architects who are specialized in interior architecture and human-environment relations, who can develop innovative, original and sustainable new ideas about possible problems and different arrangements in the fields of design and planning of the interior space and its environment.

Some Lectures:

- Design Studio
- Human and Space Relation
- Universal Design
- Lighting Technology

COMMUNICATION AND DESIGN

Number of Students: 167

Opening Year of the Department: 2011

Number of Internship Days: 30+30=60

Accreditation Status: 2019-2024

Purpose of the Department

By combining today's technologies with design, it aims to train designers who can think analytically, produce products in accordance with the determined target, have a developed sense of responsibility, are compatible with teamwork, follow the world, and can produce sustainable and interactive designs in the fields of communication, digital media and advertising.

Some Lectures:

- Digital Game Design
- Content Production on Digital Platforms
- Visual communication design
- Drone Shooting Techniques

RADIO TELEVISION AND CINEMA

Number of Students: 234

Opening Year of the Department: 2015

Number of Internship Days: 30+30=60

Accreditation Status: 2019-2024

Purpose of the Department

The Department of Radio, Television and Cinema aims to train artists who are equipped with both artistic and technical knowledge and experience in the field of communication.

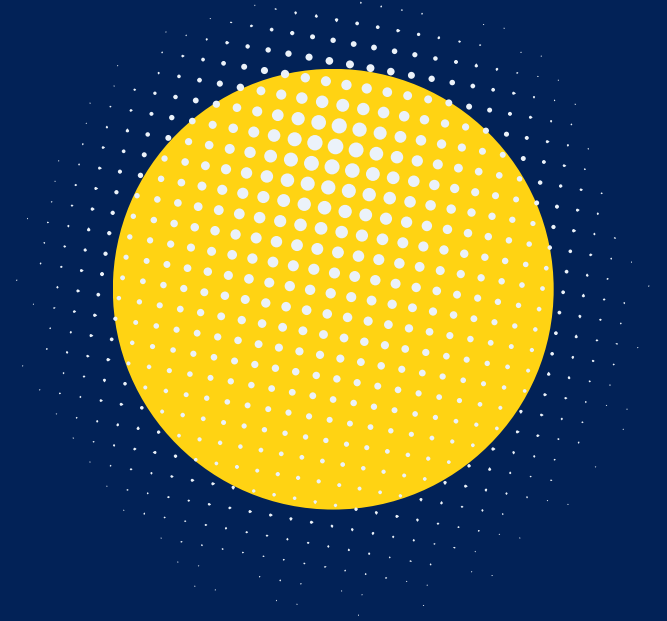

Some Lectures:

- Production Management Studio
- Audio Techniques
- Cinema Theories
- Character Design

RTS	Film Workshops Traveling Anatolia Social Responsibility Project

"WE REALIZE CHILDREN'S DREAMS" WITH THE MAKE A WISH ASSOCIATION

"Make Children's Dreams Come True"

- First Stage:
"Interview with Make a Wish"
- Second Stage:
"We Run for Children" Istanbul Marathon
- Third Stage:
E-Card Design Workshop

The goal of the project:

In cooperation with the Make a Wish Turkey Association, first of all, an interview was held for children struggling with life-threatening diseases, and the institution and their work were recognized, and then by participating in the Istanbul Marathon, aiming to raise awareness. is a social responsibility project that aims to realize their dreams.

"There Are Children in The Kitchen!" SOCIAL RESPONSIBILITY PROJECT

"Waste-Free, Natural Production Is Possible"

- First, Second and Third Stages:
Minimal Kitchen Trainings
- Fourth Stage:
Animated Movie Screening

The goal of the project:

The Minimal Kitchen Trainings project is a social responsibility project that aims to enable children in the 7-12 age group in love homes to meet the gastronomy field and to be involved in the production process. With the project, the value of producing children was made alive, while at the same time it was ensured that children were conscious of issues such as zero waste and recycling.

"SPECIAL EDUCATION CINEMA DAYS" SOCIAL RESPONSIBILITY PROJECT

"Cinema Against Barriers"

- First Session:
Special Student Group with Down Syndrome
- Second Session:
0-6 Age Group Special Students
- Third Session:
Mixed Special Education Group

The goal of the project:

Under the leadership of Istanbul Gelisim University Fine Arts Faculty Radio, Television and Cinema Department and in cooperation with Samyeli Private Education Institutions, cinema days were organized for special education students who could not find the opportunity to watch movies in movie theaters and enter social environments due to their special circumstances.

"THERE IS DEVELOPMENT IN NATURE!" SOCIAL RESPONSIBILITY PROJECT

"Environmental Awareness and Environmental Sustainability"

- First Session:
"Environmental Sustainability and
"Environmental Awareness" Interview
- Second and Third Session:
Nezahat Gökyiğit Botanical Garden Trip
- Fourth Session: Photography Exhibition

The goal of the project:

"There is Development in Nature!" Social Responsibility Project is a social responsibility project that aims to improve environmental sustainability and environmental awareness of university students with various conversations and guided tours.

"FILM WORKSHOPS VISITING ANATOLIA" SOCIAL RESPONSIBILITY PROJECT *Discover Cinema, Discover Yourself*

The goal of the project

- Film Workshops is a social responsibility project organized by Istanbul Gelisim University Faculty of Fine Arts academics to carry out filmmaking workshops in various cities of Anatolia and to transfer the art of cinema and filmmaking processes to high school students theoretically and practically.
- The main purpose of Istanbul Gelisim University Film Workshop Group is; To introduce high school students to the magic of cinema and filmmaking processes, to convey this art and its requirements on a practical and theoretical level, to provide high school students with the experience of documentary/fictional filmmaking, to give an idea about academic knowledge and university environment through academicians/directors who are competent in the field of cinema, and In this way, it is to train the filmmakers of the future.

SUSTAINABILITY THEMED COLOR AND DYEING ACTIVITY WITH KINDERGARTEN STUDENTS

- First Stage:
Painting process with 5-6 year old children
- Second Stage:
Private Seyrantepe Fairytale Tree Kindergarten
Painting Process With Servers
- Stage Three: Exhibition at Gelisim Art Gallery

The goal of the project:

Kindergarten Sustainability Themed Color and Painting Activity Project” is a social responsibility project that aims to contribute to the visual perceptions, landscapes and multiple thinking environments of 5-6 year old children studying at Private Seyrantepe Masal Tree Kindergarten, and to draw attention to the concept of sustainability.

"EFFECTIVE COMMUNICATION EDUCATION PROJECT" SOCIAL RESPONSIBILITY PROJECT *"Lifelong Learning"*

- First Stage: Interpersonal Communication Training
- Second Stage: Feedback Training
- Third Stage: Persuasion and Body Language Training

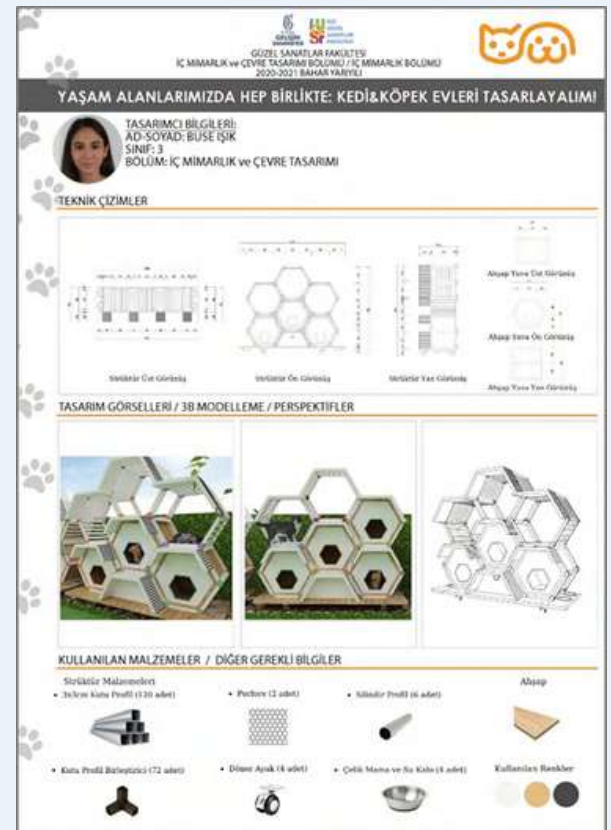

The goal of the project:

The Effective Communication Education project is a social responsibility project that aims to contribute to the production of Sabancı Maturation Institute students within the scope of lifelong learning.

"TOGETHER IN OUR LIVING SPACES: LET'S DESIGN CAT & DOG HOUSES AROUND US!" SOCIAL RESPONSIBILITY PROJECT

The goal of the project:

With this project, it is aimed to create a collective awareness to draw attention to the shelter needs of not only humans but also animals.

GRADUATES

GRADUATES

Ayşenur Ağaç **Gastronomy and Culinary Arts**

"After graduating from Istanbul Gelisim University, I decided to take formation education. I am currently taking formation education at Gazi University to continue my career as a teacher. For four years, Istanbul Gelisim University has given me a lot about my department. I cannot pay the rights of my teachers. They tried to help us in every way, showed the way and stood behind us. I thank all of them very much. Of course, the opportunities offered by our school were more than other schools. While there were minor negativities in every university, these were very normal things in our school. Thank you to everyone involved."

Melike Okur **Gastronomy and Culinary Arts**

"The Department of Gastronomy and Culinary Arts is a department where you can have fun while producing something, develop your imagination and always add innovations to yourself. In this sector, no one can say that they know everything, because it has such a wide scope that you can learn a new information and technique from anywhere you work. Our university has also contributed to our development by transferring this information to us with valuable professors. If we look at my career thinking about the department, I am curious about both the sector and the educational aspect of this profession, so I am trying to inform myself and add something in the sectoral sense by learning something in the sector. Afterwards, I want to take the formation and switch to the field of education and transfer the knowledge I have gained to the students and share them with them."

Aysemen Erdogan
Graphic design

“Hello, after discovering my talent for drawing
Then, Istanbul Gelisim University told me
I realized that you can add good things. Education
There are times in my life when I have a very difficult time.
Like, there were times when I progressed easily. The technical deficiencies I
experienced were eliminated with the school's workshops, libraries and
computer labs. At every stage of our work, our teachers were with us, just a
phone call away. Our esteemed instructors were with us whenever it was
convenient, between classes and even on holidays. Our instructors, who
spent their precious time with us, equipped us with both academic and
technical knowledge and prepared us for the difficulties we may encounter
in business life. In addition to the comprehensive course content, we were
supported for our professional development with exhibitions, competitions
and projects. When I think about the time from first grade to senior year, I
see the progress and progress I have made and I am surprised. I never forget
the efforts of my school and my teachers and their support in my good and
bad days. I am glad that I graduated from Istanbul Gelisim University and
came to the best places...”

Zumrut Demirel
Graphic design

“Drawing and combining
I am looking for a university because of my interest and
curiosity. You won the Gelisim University and passed the aptitude test.
My adventure began with my acceptance. I'm interested in me
We thank our school and teachers, who have provided opportunities and
contributions in many issues related to the department, for the interest and
education they have patiently awaited. Congratulations to the friends who
started their education after us. Our university has been very helpful,
encouraging and inspiring, with motivational talks about our conservation
plans and goals. Thanks to the seminars and conferences that are held
frequently in our school, we had the opportunity to consult with the guests
who have a different information content. All our question marks and curiosity
triggered our enthusiasm for research very well. All of our teachers were so
special and good that we will always remember them with longing.”

Zümrüt Aydın Graphic Design

"Hello, due to my interest in art and design, I studied at Istanbul Gelisim University Graphic Design Department. Graphic Design is actually a very comprehensive field that combines different disciplines. With the awareness of this, our department provided a training that combines art, design and communication. During my student life, various activities were carried out here to help us develop not only professionally but also culturally. Our teachers made great efforts to reveal our talent and the ore within us. In addition to the field studies in the courses, exhibitions and seminars contributed to our personal development. In this process, our esteemed professors shed light on not only their knowledge and experience in the field, but also their life experiences. Our valuable professors, with whom we continue to communicate after graduation, continue to support us. I would like to thank our Graphic Design Department teachers, who have worked for us with a contemporary understanding and an egalitarian approach without discriminating between any of their students, for always working for the best."

Seray Nisa Yavuz Interior Architecture

"I was a 2018 entry student at Istanbul Gelisim University, Faculty of Fine Arts, Interior Architecture Undergraduate Program. From the first time I entered the faculty, I started to learn and embraced the relationship between fine arts and architecture through various courses from these disciplines. I discovered the foundation, essence and history of architecture. In addition to these, I began to acquire the necessary technical, structural and color information from my valuable teachers with great pleasure. Architecture has been a discipline that has taught me how to approach and solve problems, to think analytically, to be practical, to struggle against time, to patience and labor. These skills shed light not only on my professional life, but also on my whole life, and they continue to do so. In addition, "Interior Architecture" has become a field that feeds my soul, as it is my dream job. I read hard. I shared my research and ideas with my esteemed professors. I thank them endlessly for creating this awareness in me and for not giving up their support. I am glad that I applied to the Undergraduate Program of the Department of Interior Architecture and received education."

Hazal Güneş
Interior Architecture and Environmental Design

"I feel very lucky and happy that I studied interior architecture and environmental design. I hope all my friends feel the same. I think it is one of the hardest but most enjoyable jobs. I hope that the friends studying in this department are constantly producing, reading, traveling and improving themselves for this profession in a wonderful way. I think our profession is a lifestyle. So I hope they will always be very proud and happy for choosing this lifestyle. I have always wanted to be a writer since I was little. Now I produce content about my profession, I write articles. Our profession has very wide wings, so it offers us a wide variety of lifestyles. I wish them to evaluate this feature of our profession."

Elif Hacıoğlu
Interior Architecture and Environmental Design

"My education process was spent working interdisciplinary and being open to continuous learning. The process teaches you to identify problems, explore and find creative solutions. It is very important to know and observe the material, it is very useful for us, especially after the jury processes, graduation and working process. It renews your self-confidence and how you present your project. My first suggestion to Interior Architecture and Environmental Design students is continuity. Because if these things happen, even if your drawings are not good in the first place, the continuous process will improve your skills. I propose to experience services such as interior programming, material information, design analysis, space planning, aesthetic sensitivity, job follow-up at the construction site, in a good way. Although this process is a difficult one, the people you receive service, training and nourishment with are very important, and I am grateful to my teachers on this issue. I am still in contact with my teachers. Because even though I graduate, I have a lot to ask and learn."

Berkay Kumaş
Interior Architecture and Environmental Design

"In 2015, when I decided to study Interior Architecture, I had done a lot of research and if I had to share the knowledge and experience I gained in the process of studying Interior Architecture, I would like to help the right people choose this department in order to inform my future colleagues. Because studying the Department of Interior Architecture and Environmental Design can become a big problem when the person cannot directly match with himself or herself. For this reason, I would like to emphasize that the university and department they attended was very enjoyable. Being aware of these values, I advise them to live their university life to the fullest and develop themselves at the maximum level. As a Gelisim University Interior Architecture and Environmental Design graduate, I would like to thank you for your interest after graduation."

Kübra Piraye Ulusoy
Interior Architecture and Environmental Design

"I can say that my university years at Istanbul Gelisim University were the turning point of my life. In this process, I would like to thank our esteemed professors who taught us something about life as well as professional education, who tried to support us constantly, and who sent us off from the faculty not only as interior designers but as confident, grounded individuals. Studying Interior Architecture and Environmental Design is tiring, stressful, sometimes makes you cry and sometimes laugh. In an instant, your close friends become architectural books and drawing programs. It is essential that you study hard in your classes and add your night to your day. However, while you are doing all these, it is a great chance for your school to strive for your development. During my undergraduate education, my department offered us the opportunity for international accreditation. As a result of the quality assurance audits, as of spring 2018, a total of 63 programs of Istanbul Gelisim University were examined in detail by international expert committees appointed by organizations such as AQAS, AHPGS, PEARSON, ABET and found suitable for accreditation. I think the university that deserves its name the most is Istanbul Gelisim University."

Melek Gülşen
Communication Design

“My 4 years at IGU were literally “academy” for me. I am very lucky, I crossed paths with great academicians, we did good work. I am grateful for these experiences that opened new business and experience doors for me.”

Rahnaz Sönmez
Communication Design

“First of all, as a Communication and Design student, I can say that I graduated ready for business life in line with my teachers who contributed to me for 4 years and the activities I attended, and the education I received. I would like to thank our faculty and our school, who support us in every field, are not afraid to ask questions, keep our curiosity alive and provide an environment open to continuous improvement, where we blend knowledge with dozens of different perspectives, and who do not spare their support in terms of both courses and job opportunities.”

Beyzanur Özer
Radio, Television and Cinema

“I graduated from Istanbul Gelisim University, Faculty of Fine Arts, 2021-2022 Radio, Television and Cinema Department. By keeping my course grades high throughout the semester I was studying, I took advantage of the Double Major Program offered by our school. I studied Interior Architecture and Environmental Design at the same time and graduated with two diplomas. I am proud to follow the success of our university, which offers a unique experience with its course contents, friendly teacher-student relations, library resources and auxiliary academic development courses. It is not difficult at all to achieve the desired future with the eye-opening education provided by our department and Asst. Prof. Dr. Emre Doğan, our esteemed head of department, who has given a significant direction to my life, with the right field selection and a good education.”

Selahaddin Bor
Radio, Television and Cinema

“I graduated from Istanbul Gelisim University, Faculty of Fine Arts, Department of Radio, Television and Cinema, 2021-2022. During the four years I studied at Istanbul Gelisim University, I attended events, festivals, talks and activities that would support my education. Istanbul Gelisim University does not stay within the borders of Turkey, but continues its success and excellence in the international sense. I think that it is one of the few universities in our country with its faculty achievements and distinguished academic staff. The capacity of the university makes a difference due to the innovations, differences, location and opportunities it has made in the field of education. I am very pleased to be a part of the Istanbul Gelisim University family and to be among the graduates of our distinguished school.”
