accredited
programs in Turkey

65 Accredited Programs

What is Accreditation?

It is the assurance of the caliber of education that universities obtain from domestic or foreign organizations. The breadth of the instruction delivered in accordance with a certain quality standard is revealed by a university's accreditation.

What are the Advantages of Studying in an Accredited Program?

- International accreditation gives university diplomas international validity.
- It offers benefits for applicants to graduate programs, international applications, and student exchange programs.
- It encourages the development of scientific projects and the planning of educational programs that takes into consideration the global community.
- Studying in a program that has received international accreditation provides access to the global business community.
