

AIR LOGISTICS

Istanbul Gelisim University
Istanbul Gelisim Vocational School

“Our program is in a very important position in the sector in order to train qualified employees for the aviation field; it trains individuals who have completed their education with theoretical knowledge and skills and who can keep up with the developments in the aviation sector today and in the future.”

Lect. Selim AYKAÇ
Head of Air Logistics Program

İstanbul Gelişim
Meslek Yüksekokulu

The Aim of the Program

Air Logistics is in a very important position in the sector to train qualified employees for the aviation field, which is increasing in importance day by day. In our program, individuals who have completed their education with theoretical knowledge and skills and who can keep up with the changes and developments in the aviation sector today and in the future are trained.

— “ —

Students complete their education with internships in the field of air logistics at the end of the semester.

— ” —

Future of the Program

The theoretical education that students receive in the program is aimed at improving their management skills. The compulsory internship, which they carry out practically, is related to gaining the ability to solve the complex structure of the aviation and logistics sector. Individuals who are ready to operate in the sector are trained with curricula prepared in accordance with the innovations and developments required by today's conditions. The aim of the program is to train students who are equipped with the theoretical knowledge and skills that can be experts in the field of aviation, who can be solution-oriented in the face of difficulties in the sector and to bring them to the sector.

Curriculum Information

The normal education period to complete the Istanbul Gelisim University, Istanbul Gelisim Vocational School Air Logistics Program is two academic years and the total minimum credit amount to be completed depending on the student workload is 120 ECTS.

In the first two semesters, our students take the courses that are taught in common in our vocational school and the basic introductory courses in the vocational field. Starting from the third semester, the focus is on vocational courses and our students start to take elective courses as well as the compulsory courses required in the vocational sense.

Sectoral Collaborations

In its pursuit of excellence in education and research, our university attaches great importance to collaborating with public, private and non-governmental organizations. These collaborations enable us to build a stronger future by sharing our knowledge and resources and working together to achieve common goals.

Internships

At the end of the second or fourth semester, our students advance in their career journey by completing a 30-day summer internship in order to graduate.

Career Opportunities

Students who graduate from the Air Logistics Program receive the title of "Air Logistics Technician". Our graduates have the opportunity to work in planning, marketing, material management, inventory management, warehouses and warehouses, distribution, transportation, insurance, customs services, purchasing, customer service, foreign trade and sales departments of airline companies and air cargo departments of cargo companies. Our graduates who prefer a career outside the aviation sector can work in logistics and industry.

Activities

Our university and our program contribute not only to gaining knowledge and skills, but also to progressing towards becoming an individual who will make his/her own difference and benefit the society. Our students have the opportunity to develop their skills in various workshops, learn by having fun at festivals, raise awareness in social responsibility projects and participate in unforgettable events, and have the chance to show themselves in competitions. Our activities develop cooperation and team skills. They also offer career opportunities.

The activities carried out are as follows:

- Workshops
- Festivals
- Trips
- Seminars
- Symposiums
- Exhibitions
- Social Responsibility Projects
- Conversations
- Sustainable Events

Double Major Opportunities

The purpose of the double major program is to enable students who successfully complete their major programs to study in a second major program free of charge. Students who have a GPA of 2.90 out of 4.00 in their major program and who are in the top 20% of their undergraduate/pre-degree program can start the second major diploma program free of charge.

Erasmus+ Program

With Erasmus+, the European Union's (EU) grant program in education, youth and sports opportunities, our students can access various opportunities such as education, training, internship, professional development, non-formal learning-based youth activities abroad.

Research Centers

With 20 different application and research centers within our university, innovative, technological and sociological studies are carried out in many different branches. In addition, thematic research groups carry out studies that will contribute to science in 10 different fields from food to construction, automotive to health.

IGU Technology Transfer Office, which was established to provide the necessary information and guidance for academics, researchers, students and graduates to start their own initiatives, listens to all students who say "I have a project" and provides all kinds of opportunities to realize these projects.

Research Projects

Project Type: EU Project

Project Name: Open Source Digital Vocational Center

Project Coordinator: Assist. Prof. Ertan GÜNDÜZ

Researcher(s): Lect. Selim AYKAÇ, Lect. Dr. Atilla AYDIN

Project Type: EU Project

Project Name: Your Organization Leadership

Project Coordinator: Nursefa KESKİN (External)

Researcher(s): Assist. Prof. Ertan GÜNDÜZ, Lect. Selim AYKAÇ

Project Type: Normal Research Project

Project Title: A Revisiting the Fight against Drugs in the Context of Socioeconomic Determinants of Drug Addiction in Turkey

Project Coordinator: Assist. Prof. Hülya ATEŞOĞLU

Project Team: Lect. Emine ÖZTÜRK, Lect. Dr. Atilla AYDIN, Assist. Prof. Fatma ULUTÜRK, Lect. Duygu HOBAN

Project Status: Ongoing

Project Type: EU Project

Project Name: Your Organization Leadership

Project Coordinator: Nursefa KESKİN

Researcher(s): Assist. Prof. Ertan GÜNDÜZ, Lect. Selim AYKAÇ

Workshops, Laboratories and Studios

- 6 Computer Laboratory-PC
- Computer Laboratory-MAC

DGS Course

Istanbul Gelisim Vocational School organizes the Vertical Transfer Examination (DGS) Course for our students free of charge every year. In the course, topics for DGS, especially basic mathematics and geometry, are covered.

In our course organized for second year students of our vocational school, our students can register and prepare for DGS free of charge by applying on the announced dates.

English Course

Istanbul Gelisim Vocational School, which operates with the aim of increasing the human equipment of our students within the framework of its vision of continuous development, opens vocational English courses for our students. The courses aim to provide an education based on social sciences and natural sciences. In the courses, our students' basic English knowledge is reinforced by working on field-specific English texts.

Our English courses are completely free of charge and contribute to increasing the human capital of our students.

IGU from Alumni Perspective

İrem Ceren KARGA

Air Logistics
Program Graduate

Before graduating from the Air Logistics Program in 2023, I completed my internship training related to my field. Then I was accepted for a full-time job at Pegasus, one of Turkey's well-established companies in the field of Air Logistics. My professors helped me a lot both during and after my education process. At the same time, I had the opportunity to socialize thanks to the activities of our university. I would like to thank my professors, Istanbul Gelisim University and everyone who contributed to me.
