

IGU SCIENTISTS CONTINUE TO STAND OUT IN NATIONAL AND INTERNATIONAL RANKINGS!

Istanbul Gelisim University (IGU) has been prominently featured in the "World's Most Influential Scientists" list compiled annually by Stanford University and in the rankings of "Top Scientists in the World and Countries" by Research.com, one of the leading research and academic portals globally. Additionally, in the "University Monitoring and Evaluation General Report-2023" prepared by the Council of Higher Education (YÖK), IGU secured its success in the category of "Number of Publications Receiving Citations in the Top 10%". When considering universities' historical data, IGU emerged as one of the top three universities consistently showing improvement in this category.

Istanbul Gelisim University (IGU), progressing with a contemporary, evolving, productive, and high-quality education approach, stands out through its emphasis on science, technology, and R&D endeavors. Evaluated across 74 different indicators among 208 universities in the "University Monitoring and Evaluation General Report-2023," IGU excelled in six areas, ranking among the top three universities showing improvement in the category of "Number of Publications Receiving Citations in the Top 10%." IGU's success, as recognized in Research.com's "Top Scientists" list and Stanford University's "World's Most Influential Scientists" list, has also been affirmed by the Council of Higher Education (YÖK).

ISTANBUL GELISIM UNIVERSITY (IGU) HAS THREE ACADEMICIANS LISTED IN RESEARCH.COM'S "TOP SCIENTISTS" LIST

One of the most significant online academic portals for scientists, Research.com, included three academics from Istanbul Gelişim University (IGU) in its "Top Scientists" list. The list, prepared based on the work of scientists in their respective fields, considers criteria such as D-Index data, awards received by researchers, academic publications, and citation counts to formulate the rankings.

Istanbul Gelisim University's successful academics listed among the "Top Scientists" based on the D-Index, which measures scientific productivity, evaluation, and monitoring of scientists' performance, include:

Prof. Dr. Bahri Şahin, Rector of Istanbul Gelisim University, ranked 17th among 47 scientists from Turkey in the field of Engineering and Technology, and globally positioned at 4020th place.

IN THE "WORLD'S MOST INFLUENTIAL SCIENTISTS" LIST, THERE ARE FOUR ACADEMICIANS FROM ISTANBUL GELISIM UNIVERSITY (IGU)

The "World's Most Influential Scientists" list compiled annually by Stanford University takes into account international criteria such as the impact factor of the journals where scientists' articles are published, the number of high-quality publications,

citations received for their work, h-index, hm-index, the number of first-authored and single-authored papers, the number of cited articles, and the impact factor of the journals where the citing articles are published. This list is published in two categories: "Lifetime Impact" and "Annual Impact." In this list, four academics from Istanbul Gelisim University were featured. In the "Lifetime Impact" list, IGU Rector Prof. Dr. Bahri Şahin maintained his position as a consistent figure among influential scientists. Additionally, Asst. Prof. Dr. Festus Victor Bekun from the Department of Logistics Management in the Faculty of Economics, Administrative, and Social Sciences (FEASS), and Prof. Dr. Ahmet Cihat Baytaş from the Department of Aeronautical Engineering in the Faculty of Engineering and Architecture were also featured among the "World's Most Influential Scientists." Moreover, in the "Annual Impact" category, Asst. Prof. Dr. Festus Victor Bekun from the Department of Logistics Management in FEASS and Asst. Prof. Dr. Edmund Ntom Udemba from the Department of International Trade and Finance in FEASS secured their places on the "World's Most Influential Scientists" list based on detailed criteria.

IGU'S EDUCATION AT INTERNATIONAL STANDARDS IS IN THE TOP 3!

IGU, which stands out with its internationalization policies, was ranked 3rd in the "Number of International PhD Faculty Member" category in the "University Monitoring and Evaluation General Report-2023".

International students from 106 different countries study at IGU, which moves forward with the vision of "World University". At IGU, which is the university with the most internationally accredited programs in Turkey with its internationalization policies, students graduating from accredited departments receive internationally valid diplomas.

Gelisim University, whose 65 departments in health, social, sports and engineering sciences are accredited by internationally respected accreditation organizations such as AQAS, AHPGS and ABET, is certified to comply with international standards. In the list where Council of Higher Education (YÖK) evaluated 208 universities in Türkiye according to 74 different indicators. IGU remained at the top and ranked first, as it was last year, as the university with the highest number of accredited undergraduate programs among both state and foundation universities.

INTERNATIONAL ACADEMICIANS FROM IGU ARE AMONG THE BEST SCIENTISTS IN THE WORLD!

IGU, one of the top 3 universities in Türkiye preferred by international students with its international recognition and the opportunities it provides to its students, ranked 3rd in the "Number of International PhD Faculty Member" category in the "University Monitoring and Evaluation General Report-2023" prepared by YÖK.

Asst. Prof. Dr. Festus Victor Bekun, from the Department of Logistics Management, Faculty of Economics, Administrative and Social Sciences, is included in two categories: "Career-Long Impact" and "Annual Impact" in Stanford University's annual "World's Most Influential Scientists" list and Asst. Prof. Dr. Edmund Ntom

Udemba from the Department of International Trade and Finance, who had his name written in the "Annual Impact" category, was entitled to be among the "World's Most Influential Scientists". International academician Asst. Prof. Dr. Festus Victor from IGU, who stands out in the list of the "Best Scientists" of the world and countries by Research.com, one of the world's leading research and academy portals, became the only scientist from Turkiye in the field of Economics and Finance. He was ranked 1183rd in the world. International academicians from IGU contribute to educational opportunities on a global scale with the scientific projects they carry out.
