

## **A VISIT WAS MADE TO TUBITAK MAM BY IGU-TTO**

Istanbul Gelisim University Technology Transfer Office (IGU-TTO) visited TUBITAK MAM.

Istanbul Gelisim University Technology Transfer Office (IGU-TTO), which stands out with many projects and collaborations in scientific and technological fields, has added a new one to its work. In order to exchange views on mutual cooperation and joint project studies between TÜBİTAK MAM and IGU, IGU-TTO Director Yahya Kemal Kıran, PhD student Leva Markuniene, who is studying at IGU to do her biosensor internship with Safar Pourabbas and Erasmus, visited TÜBİTAK MAM.

During the visit, Leva Markuniene (Lithuania), who applied to IGU to conduct a study on the development, research and applications of biosensors as her thesis study, and aims to conduct an in-depth research on measuring the functionality and applications of piezoelectric components, also had the opportunity to continue her studies in the Laboratory at TÜBİTAK MAM 3 B Center.

Within the scope of the thesis, the development of a functional element (film) consisting of materials such as PVDF (fluorinated polymer material), GO (graphene oxide) and AgNO<sub>3</sub> (silver nitrate) and the effective use of this element in biosensor applications will be studied.

## **A PROTOCOL WAS SIGNED BETWEEN IGU ORAL AND DENTAL HEALTH APPLICATION AND RESEARCH CENTER (ADSUAM) AND SSI**

A protocol was signed between Istanbul Gelisim University Oral and Dental Health Application and Research Center (ADSUAM) and the Social Security Institution (SSI).

IGU Faculty of Dentistry, a member of ADEE (Association for Dental Education in Europe), trains dentists who are trained at European standards. A protocol was signed between Istanbul Gelisim University Oral and Dental Health Application and Research Center (ADSUAM), which started to serve in 2022 with its expert staff, modern clinics and laboratories, and the Social Security Institution (SSI). In the contract signed at the meeting attended by IGU Rector Prof. Dr. Bahri Şahin and Secretary General Assoc. Prof. Dr. Serdar Egeli, these are aimed to regulate rights and obligations; the provision of quality, equal, accessible health services to people whose health care costs are covered by the Social Security Institution and in accordance with the generally accepted rules of medical science, and the relations of health service providers with the Social Security Institution.
