

IGU IS ON THE TOP IN WEBOMETRICS WORLD UNIVERSITY RANKINGS!

Istanbul Gelisim University, which progresses with the vision of "Research University", was listed 2249th in the World University Rankings of Webometrics in 2024 and rose 293 places compared to last year. Continuing its rise in the last three years, IGU ranked 58th among Turkish universities with 10 steps.

Webometrics World University Rankings are one of the most well-known academic rankings of Higher Education Institutions, which provide an independent, objective and open scientific study that evaluates all universities twice a year, every six months in January and July. The main purpose of the Webometrics World University Rankings is to promote the existence of the academic web by supporting "Open Access" initiatives to significantly increase the transfer of scientific and cultural knowledge produced by universities to the whole society.

IGU ranked 140th in the CIVETS ranking, which includes countries such as Colombia, Indonesia, Vietnam, Egypt, Türkiye and South Africa, which have common characteristics such as a young and growing population with a diverse and dynamic economy.

IGU ranked 58th among Turkish universities

Istanbul Gelisim University (IGU), which advances with the vision of "Research University", attaches importance to science and R&D studies by contributing to the production of new technologies. Adding another success to its national and international achievements, IGU was listed 2249th in the World University Rankings of Webometrics in 2024 and rose 29 places compared to last year. While ranking 58th among Turkish universities with 10 steps, it ranked 14th among Turkish foundation universities. In the 2024 Continental Ranking, it rose 5 places to 813th compared to last year. Continuing its rise in the Webometrics World University Rankings in the last three years, IGU achieves success on a global scale with its breakthroughs in scientific, technological and cultural fields.

Istanbul Gelişim University, which has succeeded in rising in all categories published by Webometrics for the last three years, has received other degrees in the Webometrics World Rankings as follows:

1909th in the Webometrics Openness (Transparency) Category,

1853th in Excellence Rankings,

6269th in the Impact (Visibility) Rankings.

IGU also continued its success in continental rankings,

810th among European universities,
796th in the rankings of Asian universities,
180th in the Middle East universities rankings,
1605th in the rankings of Eurasia universities.

SCIENTIFIC AND TECHNOLOGICAL RESEARCH PROJECTS WORKSHOP WAS HELD AT IGU!

Hosted by Istanbul Gelisim University Scientific Research Projects Coordinator and contributed by Sakarya University Scientific Research Projects Coordinator Assoc. Prof. Dr. Gamze Güney Eskiler, the workshop attracted great attention. Assoc. Prof. Dr. Eskiler gave valuable information to the participants throughout the workshop in light of her academic career and experience.

Workshop program started with the Istanbul Gelisim University Vice Rector Prof. Dr. Necmettin Maraşlı's opening speech. In his speech, he informed the participants about the purpose and expectations of the workshop and drew attention to the importance of the workshop. In the workshop, participants had the opportunity to reinforce their knowledge about their work and individual projects. Assoc. Prof. Dr. Gamze Güney Eskiler paid one-on-one attention to each participant, answering their questions and giving feedback. The interactive nature of the training enabled the participants to have an effective learning experience. On the second day of the workshop, Istanbul Gelisim University Rector Prof. Dr. Bahri Şahin attended and emphasized his support for the workshop program. Rector Prof. Dr. Bahri Şahin expressed the importance that IGU attaches to academic and professional development with similar activities. He thanked Assoc. Prof. Dr. Gamze Güney Eskiler.

Istanbul Gelisim University 2023-2024 Academic Year Graduation Ceremony was held on July 24-25. 9,903 students who graduated from undergraduate, graduate and associate degree programs threw away their graduation caps. Istanbul Gelisim University 2023-2024 Academic Year Graduation Ceremony was held on July 24-25. 9,903 students who graduated from undergraduate, graduate and associate degree programs threw away their graduation caps.

Istanbul Gelisim University (IGU), which continues its studies with the vision of "Research University", prepared its 15th term graduates to the future with the ceremonies held in Yahya Kemal Beyatlı Performing Arts Center on July 24-25,

2024. 9,903 students who graduated from undergraduate, graduate and associate degree programs shared their excitement and happiness with their families.

"We want our students and graduates to be people of the world"

The 15th semester graduation ceremony started with Abdülkadir Gayretli, Chairman of the Board of Trustees of Istanbul Gelisim University, and Rector Prof. Dr. Bahri Şahin's opening speeches. Abdülkadir Gayretli, Chairman of the Board of Trustees of Istanbul Gelisim University, gave the graduates the good news. The tuition will be covered if they are accepted for master's and doctorate from the universities in the top 20 in the World University Rankings. He also added: "We want our students and graduates to be within universal values and to be a world person. In this age of rapidly spreading knowledge and increasing cultural interaction, language skills are vital not only for academic and professional development, but also for your personal development. With your graduation, you will be able to have a say in international platforms, interact with different cultures and produce innovative solutions to global problems thanks to the language skills you have. We are confident that you will make valuable contributions to society by using these skills effectively. We are proud of you. Our future is in your hands."

"Our country and the world need you"

IGU, which stands out with its internationalization policy and global projects, is the 1st university in Türkiye with 45 YÖK-approved graduation certificates and the highest international accreditation. Istanbul Gelisim University Rector Prof. Dr. Bahri Şahin continued his words as follows: "We are proud to graduate 4463 undergraduate and 5440 associate degree students at IGU along two days. Each of you are very valuable to our university and our country. Like all of our IGU graduates, you will work in the service of our country and humanity. Our university aims to make an impact worldwide by being at the intersection of science and technology. You should remember that you are not only individuals armed with knowledge, but also leaders who understand how that knowledge can be used to make the world a better place. Science and technology include not only theoretical knowledge but also how to make that knowledge useful to humanity. It will be a great source of pride for us to see you as an ambassador of our university after your graduation. Make the most of the opportunities offered by science and technology without losing your love of research and learning, wherever you are. I believe that you will reflect the theoretical and practical education you have received in the most efficient way and that you will successfully represent Istanbul Gelisim University in the national and international arena. Our country and the world need you so much."
