

APPLIED ENGLISH TRANSLATION

Istanbul Gelisim University
Istanbul Gelisim Vocational School

“*In order for you to professionalize in the fields of language and translation and to advance in this direction in your career life; Our Applied English Translation and Interpreting Program aims to bring you to your goal with the theoretical and practical courses it offers.*”

*Lect. Tuğçe Özdiñ KIZILDERE
Head of Applied English Translation and Interpreting Program*

Istanbul Gelisim
Meslek Yüksekokulu

The Aim of The Program

In our globalized world where the use of English is increasing, the need for translators who know English and can use it effectively is increasing, especially in corporate workplaces. The aim of the Applied English Translation and Interpreting Program is to train qualified people to meet the need for English translators in various institutions and organizations.

— “ —

During this communicative and practical training intertwined with technology; our experienced professors will always be with you to support you.

— ” —

Future of the Program

The Applied English Translation and Interpreting Program aims to enable students who have completed their basic language education to become professional translators who use all four language skills and apply translation studies effectively.

Curriculum Information

Istanbul Gelisim University, Istanbul Gelisim Vocational School, Istanbul Gelisim Vocational School, Applied English Translation and Interpreting Program has a normal education period of two academic years and the total minimum credit amount to be completed depending on the student workload is 120 ECTS.

In the first two semesters, our students take the courses taught in common in our vocational school and basic introductory courses in the professional field. Starting from the third semester, the focus is on vocational courses and our students begin to take elective courses as well as the compulsory courses required in the vocational sense.

Sectoral Collaborations

In its pursuit of excellence in education and research, our university attaches great importance to collaborating with public, private and non-governmental organizations. These collaborations enable us to build a stronger future by sharing our knowledge and resources and working together to achieve common goals.

Internship

At the end of the second or fourth semester, our students advance in their career journey by completing a 30-day summer internship in order to graduate.

Career Opportunities

Our graduates have the opportunity to pursue careers in public institutions such as the Ministry of Foreign Affairs, the Ministry of Culture and Tourism, and in commercial organizations and organizations in various sectors such as newspaper bureaus, news agencies, import-export companies, hotels, travel agencies, tour and organization companies, tourism companies.

Activities

Our university and our program contribute not only to gaining knowledge and skills, but also to progressing towards becoming an individual who will make his/her own difference and benefit the society. Our students have the opportunity to develop their skills in various workshops, learn by having fun at festivals, raise awareness in social responsibility projects and participate in unforgettable events, and have the chance to show themselves in competitions. Our activities develop cooperation and team skills. They also offer career opportunities.

The activities carried out are as follows:

- Workshops
- Festivals
- Trips
- Seminars
- Symposiums
- Exhibitions
- Social Responsibility Projects
- Conversations
- Sustainability Events

Double Major Opportunities

The purpose of the double major program is to enable students who successfully complete their major programs to study in a second major program free of charge. Students who have a GPA of 2.90 out of 4.00 in their major program and who are in the top 20% of their undergraduate/pre-degree program can start the second major diploma program free of charge.

Erasmus+ Program

With Erasmus+, the European Union's (EU) grant program in education, youth and sports opportunities, our students can access various opportunities such as education, training, internship, professional development, non-formal learning-based youth activities abroad.

Research Centers

Innovative, technological and sociological studies are carried out in many different branches with 20 different application and research centers within our university. In addition, thematic research groups carry out studies that will contribute to science in 10 different fields from food to construction, automotive to health.

IGU Technology Transfer Office, which was established to provide the necessary information and guidance for academicians, researchers, students and graduates to start their own initiatives, listens to all students who say “I have a project” and provides all kinds of opportunities to realize these projects.

Workshops, Laboratories and Studios

- 6 Computer Laboratory-PC
- Computer Laboratory-MAC

DGS Course

Istanbul Gelisim Vocational School organizes the Vertical Transfer Examination (DGS) Course for our students free of charge every year. In the course, topics for DGS, especially basic mathematics and geometry, are covered.

Our students can register for our course organized for second year students of our vocational school by applying on the announced dates and prepare for DGS free of charge.

English Course

Istanbul Gelisim Vocational School, which operates with the aim of increasing the human equipment of our students within the framework of its vision of continuous development, opens vocational English courses for our students. The courses aim to provide an education based on social sciences and natural sciences. In the courses, our students' basic English knowledge is reinforced by working on field-specific English texts.

Our English courses are completely free of charge and contribute to increasing the human capital of our students.
