

# CIVIL AVIATION CABIN SERVICES (ENGLISH)

Istanbul Gelisim University  
Istanbul Gelisim Vocational School

“ Our Civil Aviation Cabin Services English program, which provides education at international standards, offers students both theoretical knowledge and practical experience, opening the doors to a bright career in the global aviation industry. ”

Lect. Tahir GÜRDİL

Head of Civil Aviation Cabin Services (English) Program

**Istanbul Gelisim**  
Meslek Yüksekokulu

## The Aim of The Program

The primary aim of the Civil Aviation Cabin Services (English) Program is to meet the growing demand for cabin services personnel in parallel with the aviation sector's growth. The program focuses on training individuals who are team-oriented, proficient in operational activities, possess strong communication skills, excel in customer relations, have problem-solving abilities, think analytically, are highly proficient in foreign languages, and can contribute positively to their community and country.

— “ —————

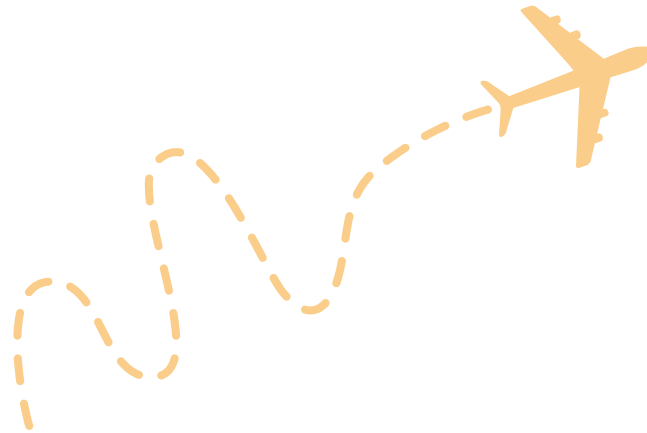

*We train the cabin crew of the future with expert instructors and modern educational methods at international standards.*

————— ” —

## Program's Future

The Civil Aviation Cabin Services (English) Program aims to train individuals who are qualified and equipped to meet the needs of the industry. Students undergo a one-year preparatory education followed by a two-year vocational training, thus providing the sector with skilled and competent professionals.

## Curriculum Information

At Istanbul Gelişim University, the normal duration of the Civil Aviation Management (English) Program at Istanbul Gelişim Vocational School is two academic years. The total minimum credit requirement to be completed, based on student workload, is 120 ECTS.

In the first two semesters, our students take common courses offered at our vocational school and introductory courses relevant to their field. From the third semester onward, the focus shifts to professional courses, and our students begin taking both the mandatory courses necessary for their profession and elective courses.

## Academic Staff

**Lect.  
Tahir GÜRDİL**

Civil Aviation Cabin Services (English)  
Head of The Program

**Assist. Prof.  
Elçin YAKUPOĞLU**

Civil Aviation Cabin Services (English)

## Sectoral Collaborations

In our pursuit of excellence in education and research, our university places great importance on collaborating with public, private, and non-governmental organizations. These partnerships enable us to share knowledge and resources, work together towards common goals, and build a stronger future.

## Internship

At the end of the second or fourth semester, our students complete a 30-day summer internship, which is a requirement for graduation. This experience helps them advance in their career journey.

## Career Opportunities

Graduates of the Civil Aviation Management program can pursue a four-year bachelor's degree in various departments through the vertical transfer exam if they wish. Alternatively, after completing their associate degree, they can work in the airline industry or in management positions within private and public institutions.

## Activities

Our university and program not only focus on gaining knowledge and skills but also contribute to becoming an individual who makes a difference and benefits society. Our students have the opportunity to develop their skills in various workshops, learn through fun at festivals, create awareness in social responsibility projects, participate in memorable events, and demonstrate their talents in competitions. Our activities foster collaboration and teamwork skills while also providing career opportunities

The activities carried out are as follows:

- Workshops
- Festivals
- Trips
- Seminars
- Symposiums
- Exhibitions
- Social Responsibility Projects
- Talks
- Sustainable Events

## Double Major Opportunities

The purpose of the double major program is to enable students who successfully complete their major programs to study in a second major program free of charge. Students who have a GPA of 2.90 out of 4.00 in their major program and who are in the top 20% of their undergraduate/pre-degree program can start the second major diploma program free of charge.

## Erasmus+ Program

With Erasmus+, the European Union's (EU) grant program in education, youth and sports opportunities, our students can access various opportunities such as education, training, internship, professional development, non-formal learning-based youth activities abroad.

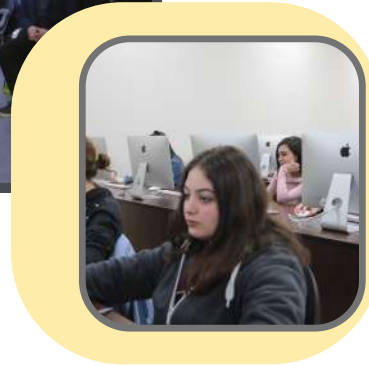

## Research Centers

Innovative, technological and sociological studies are carried out in many different branches with 20 different application and research centers within our university. In addition, thematic research groups carry out studies that will contribute to science in 10 different fields from food to construction, automotive to health.

IGU Technology Transfer Office, which was established to provide the necessary information and guidance for academicians, researchers, students and graduates to start their own initiatives, listens to all students who say “I have a project” and provides all kinds of opportunities to realize these projects.

## Workshops, Laboratories, and Studios

- 6 Computer Laboratories - PC
- Computer Laboratory - MAC
- 2 Aircraft Systems Laboratories
- 2 Aircraft Engine Laboratories
- Aircraft Structural / Mechanical Laboratory
- Aircraft Electronics / Avionics Laboratory
- Civil Aviation Cabin Services Laboratory
- Aircraft Composite Workshop

## DGS Course

Every year, Istanbul Gelişim Vocational School offers a free Vertical Transfer Exam (DGS) Course to our students. The course covers topics relevant to the DGS, including fundamental mathematics and geometry.

Our second-year vocational school students can apply and register for the course on the announced dates, allowing them to prepare for the DGS free of charge.

## English Course

Within the framework of a vision for continuous development, Istanbul Gelişim Vocational School aims to enhance the human capital of our students by offering professional English courses. These courses are designed to provide education based on social sciences and natural sciences. By working on English texts specific to their fields, the courses reinforce our students' basic English skills.

Our English courses are completely free and contribute to increasing the human capital of our students.

## IGU from Alumni Perspective

### Cansu BALLI

Graduate of the Civil Aviation  
Cabin Services (English) Program

My journey at Istanbul Gelişim University coincided with the COVID-19 pandemic period. However, whether face-to-face or online, our professors' attention and care never wavered. After one year of English preparatory education, I met my program instructors. They were all incredibly kind, well-versed in the aviation sector, and experienced experts, which strengthened our connection to the industry. They served as role models for us and laid the foundations for our career paths.
