

CIVIL AVIATION CABIN SERVICES

Istanbul Gelisim University
Istanbul Gelisim Vocational School

“For students who are interested in aviation and flying, enjoy traveling, discovering different countries and cultures, value human relationships, and have a mission of continuous self-improvement, becoming a cabin crew member should definitely be among their preferences.”

Lect. Remzi SIZAN
Head of Civil Aviation Cabin Services Program

Istanbul Gelisim
Meslek Yüksekokulu

The Aim of The Program

The aim of the program is to train employees with the qualifications needed by the aviation sector. It ensures the development of a safety culture, which is essential for cabin crew candidates and one of the cornerstones of aviation. Additionally, it helps them learn other professional knowledge and contributes to their personal development.

— “ —————

The aviation industry, which continuously develops and expands its fleets with new aircraft worldwide, has recently become one of the most trending professional fields.

————— ” —

Program's Future

Since being flight personnel requires certain physical attributes and there is a possibility of losing flight qualifications in the future, the program also includes courses that equip graduates with the skills needed to be easily employed in passenger and operations services of ground handling companies.

Curriculum Information

At Istanbul Gelişim University, the normal duration of the Civil Aviation Management (English) Program at Istanbul Gelişim Vocational School is two academic years. The total minimum credit requirement to be completed, based on student workload, is 120 ECTS.

In the first two semesters, our students take common courses offered at our vocational school and introductory courses relevant to their field. From the third semester onward, the focus shifts to professional courses, and our students begin taking both the mandatory courses necessary for their profession and elective courses.

Academic Staff

Lect.

Remzi SIZAN

Civil Aviation Cabin Services
Head of The Program

Lect.

Özlem ÇELİK ÇELİKER

Civil Aviation Cabin Services

Zeynep Handan ULUKUZ

Civil Aviation Cabin Services

Sectoral Collaborations

In our pursuit of excellence in education and research, our university places great importance on collaborating with public, private, and non-governmental organizations. These partnerships enable us to share knowledge and resources, work together towards common goals, and build a stronger future

Internship

At the end of the second or fourth semester, our students complete a 30-day summer internship, which is a requirement for graduation. This experience helps them advance in their career journey.

Career Opportunities

Our program graduates have the opportunity to work in all businesses operating in the aviation field as well as institutions and organizations providing aviation-related services.

Activities

Our university and program not only focus on gaining knowledge and skills but also contribute to becoming an individual who makes a difference and benefits society. Our students have the opportunity to develop their skills in various workshops, learn through fun at festivals, create awareness in social responsibility projects, participate in memorable events, and demonstrate their talents in competitions. Our activities foster collaboration and teamwork skills while also providing career opportunities

The activities carried out are as follows:

- Workshops
- Festivals
- Trips
- Seminars
- Symposiums
- Exhibitions
- Social Responsibility Projects
- Talks
- Sustainable Events

Double Major Opportunities

The purpose of the double major program is to enable students who successfully complete their major programs to study in a second major program free of charge. Students who have a GPA of 2.90 out of 4.00 in their major program and who are in the top 20% of their undergraduate/pre-degree program can start the second major diploma program free of charge.

Erasmus+ Program

With Erasmus+, the European Union's (EU) grant program in education, youth and sports opportunities, our students can access various opportunities such as education, training, internship, professional development, non-formal learning-based youth activities abroad.

Research Centers

Innovative, technological and sociological studies are carried out in many different branches with 20 different application and research centers within our university. In addition, thematic research groups carry out studies that will contribute to science in 10 different fields from food to construction, automotive to health.

IGU Technology Transfer Office, which was established to provide the necessary information and guidance for academicians, researchers, students and graduates to start their own initiatives, listens to all students who say “I have a project” and provides all kinds of opportunities to realize these projects.

Workshops, Laboratories, and Studios

- 6 Computer Laboratories - PC
- Computer Laboratory - MAC
- 2 Aircraft Systems Laboratories
- 2 Aircraft Engine Laboratories
- Aircraft Structural / Mechanical Laboratory
- Aircraft Electronics / Avionics Laboratory
- Civil Aviation Cabin Services Laboratory
- Aircraft Composite Workshop

DGS Course

Every year, Istanbul Gelişim Vocational School offers a free Vertical Transfer Exam (DGS) Course to our students. The course covers topics relevant to the DGS, including fundamental mathematics and geometry.

Our second-year vocational school students can apply and register for the course on the announced dates, allowing them to prepare for the DGS free of charge.

English Course

Within the framework of a vision for continuous development, Istanbul Gelişim Vocational School aims to enhance the human capital of our students by offering professional English courses. These courses are designed to provide education based on social sciences and natural sciences. By working on English texts specific to their fields, the courses reinforce our students' basic English skills.

Our English courses are completely free and contribute to increasing the human capital of our students.
