Sectoral Collaborations

Our university attaches great importance to cooperation with the public, private sector and non-governmental organizations in its pursuit of excellence in education and research. These collaborations enable us to build a stronger future by sharing our knowledge and resources and working together to achieve common goals.

Internship

At the end of the second or fourth semester, our students progress in their career journey by doing 30-day summer internships in order to graduate.

Career Opportunities

Graduates of the Human Resources Management Program will be able to work in Human Resources departments of private and public companies in application areas such as recruitment, personnel and payroll, training and development, performance management and career management. Our graduates also have the opportunity to work in private and public employment institutions, human resources consultancy firms and unions.

Activities

Our university and our program contribute not only to gaining knowledge and skills, but also to progressing towards becoming an individual who will make his/her own difference and benefit the society. Our students have the opportunity to develop their skills in various workshops, learn by having fun at festivals, raise awareness in social responsibility projects and participate in unforgettable events, and have the chance to show themselves in competitions. Our activities develop cooperation and team skills. They also offer career opportunities.

The activities carried out are as follows:

- Workshops
- Festivals
- Trips
- Seminars
- Symposiums
- Exhibitions
- Social Responsibility Projects
- Interviews
- Sustainable Events

Double Major Opportunities

The purpose of the double major program is to enable students who have successfully completed their major program to study in a second major program free of charge. Students who have a cumulative grade point average of 2.90 out of 4.00 in their major program and who are in the top 20% of their undergraduate/graduate program can start the second major diploma program free of charge.

Erasmus+ Program

With Erasmus+, the European Union's (EU) grant program in education, youth, and sports opportunities, our students can access various opportunities such as education, training, internship, professional development, non-formal learning-based youth activities abroad.

Research Centers

Innovative, technological and sociological studies are carried out in many different branches with 20 different application and research centers within our university. In addition, thematic research groups carry out studies that will contribute to science in 10 different fields from food to construction, automotive to health.

IGU listens to all students who say “I have a project” and provides all kinds of opportunities to realize these projects. IGU also has a Technology Transfer Office to provide the necessary information and guidance for academicians, researchers, students and graduates to start their own initiatives and to create the necessary collaborations for this purpose.

Our English courses are completely free and contribute to increasing the human skills of our students.

IGU from Alumni Perspective

Gizem IŞIK

Human Resources
Management Program
Graduate

The Human Resources Management Program was one of the most accurate and effective choices in my career. Having an associate's degree in this field helped me to grasp the fundamentals of the business world and created a strong foundation. The program comprehensively teaches human resources processes, recruitment, training, performance appraisals and labor relations. The expert teaching staff offered courses enriched with current examples and industry developments. Thanks to this program, I had the opportunity to develop myself in the field of human resources and build a solid foundation for my career. I would like to express my gratitude to my professors for their support.
