

LOGISTICS

Istanbul Gelisim University
Istanbul Gelisim Vocational School

“Our program provides our students with the essential skills, such as strategic planning, operational management and supply chain optimization, which are necessary to gain a competitive advantage in today's complex business world.”

Lect. Seren FIRAT
Head of the Logistics Program

Istanbul Gelisim
Meslek Yüksekokulu

The Aim of the Program

To teach the basic concepts, problems, and solution methods of logistics to the students in the Logistics Program. To provide students with the ability to provide scientific and practical solutions to fundamental logistics issues such as local and international transportation, warehouse management/stocking, and supply chain management.

— “ —

It shows itself with all developing sectors, and with every growing sector, the logistics sector also grows itself.

— ” —

Future of the Program

To train individuals who have a command of basic logistics concepts, know the problems of the sector and can develop solutions at this point, successfully apply problem-solving activities such as time management, crisis management, have strong human relations and business ethics, equipped with theoretical and practical knowledge, and open to innovations.

Curriculum Information

The normal education period to complete the Istanbul Gelişim University, Istanbul Gelişim Vocational School Logistics Program is two academic years, and the total minimum credit amount to be completed depending on the student workload is 120 ECTS.

In the first two semesters, our students take common courses at our vocational school and basic introduction courses to the field in a professional sense. Starting from the third semester, the focus is on vocational courses and our students begin to take elective courses in addition to the compulsory courses that are required in the professional sense.

Logistics

Sectoral Collaborations

Our university attaches great importance to cooperation with the public, private sector and non-governmental organizations in its pursuit of excellence in education and research. These collaborations enable us to build a stronger future by sharing our knowledge and resources and working together to achieve common goals.

Internship

At the end of the second or fourth semester, our students progress in their career journey by doing 30-day summer internships in order to graduate.

Career Opportunities

Graduates of the program have the opportunity to work in planning and product design, marketing, production planning, material management, inventory management, warehousing, distribution, transportation, insurance, customs services, purchasing, customer service, foreign trade, and sales departments of all companies operating in the private and public sectors, as well as in logistics companies.

Activities

Our university and our program contribute not only to gaining knowledge and skills, but also to progressing towards becoming an individual who will make his/her own difference and benefit the society. Our students have the opportunity to develop their skills in various workshops, learn by having fun at festivals, raise awareness in social responsibility projects and participate in unforgettable events, and have the chance to show themselves in competitions. Our activities develop cooperation and team skills. They also offer career opportunities.

The activities carried out are as follows:

- Workshops
- Festivals
- Trips
- Seminars
- Symposiums
- Exhibitions
- Social Responsibility Projects
- Interviews
- Sustainable Events

Double Major Opportunities

The purpose of the double major program is to enable students who have successfully completed their major program to study in a second major program free of charge. Students who have a cumulative grade point average of 2.90 out of 4.00 in their major program and who are in the top 20% of their undergraduate/graduate program can start the second major diploma program free of charge.

Erasmus+ Program

With Erasmus+, the European Union's (EU) grant program in education, youth, and sports opportunities, our students can access various opportunities such as education, training, internship, professional development, non-formal learning-based youth activities abroad.

Research Centers

Innovative, technological and sociological studies are carried out in many different branches with 20 different application and research centers within our university. In addition, thematic research groups carry out studies that will contribute to science in 10 different fields from food to construction, automotive to health.

IGU listens to all students who say “I have a project” and provides all kinds of opportunities to realize these projects. IGU also has a Technology Transfer Office to provide the necessary information and guidance for academicians, researchers, students and graduates to start their own initiatives and to create the necessary collaborations for this purpose.

Research Projects

Project Name: The Process of Teaching the Use of Domestic Land Transportation Module, International Land Transportation Module and Air Cargo Transportation Module Computer Programs, which are among the Software Programs Used for Analyzing and Sharing Information in the Supply Chain in terms of Digitalization, to Logistics Department Students

Principal Investigator: Assist. Prof. Murat BAŞAL

Researcher(s): Assist. Prof. Ekrem SÜZEN, Assist. Prof. M. KEKE, Lect. Emine ÖZTÜRK

Project Type: Normal Research Project
Project Name: Revisiting the War on Drugs within the Scope of Socioeconomic Determinants of Drug Addiction in Turkey
Principal Investigator: Assist. Prof. Hülya ATEŞOĞLU
Project Team: Assist. Prof. Fatma ULUTÜRK, Lect. Dr. Atilla AYDIN, Lect. Emine ÖZTÜRK, Lect. Duygu HOBAN
Project Status: Ongoing

Workshops, Laboratories and Studios

- 6 PC Computer Laboratories
- 1 MAC Computer Laboratory

DGS Course

Istanbul Gelisim Vocational School organizes the Vertical Transfer Examination (DGS) Course for our students free of charge every year. In the course, topics for DGS, especially basic mathematics and geometry, are covered.

Our students can register for our course organized for second year students of our vocational school by applying on the announced dates and prepare for DGS free of charge.

English Course

Istanbul Gelisim Vocational School, which operates with the aim of increasing the human skills of our students within the framework of its vision of continuous development, opens professional English courses for our students. The aim of the courses is to provide education based on social sciences and natural sciences. In the lessons, our students' basic English knowledge is reinforced by studying field-specific English texts.

Our English courses are completely free and contribute to increasing the human skills of our students.

IGU from Alumni Perspective

**Tuğba
POSKIRANLIOĞLU**

Logistics Program Graduate

After completing the intensive associate degree process, as a result of the incentives given to me, I started to continue my education at the undergraduate level by going through the necessary processes. The success that I have achieved makes Istanbul Gelisim University indispensable for me. I am currently continuing my education as a third-year student of Istanbul Gelisim University in the Logistics Management program in the Faculty of Economics, Administrative, and Social Sciences with the Vertical Transfer Exam. I recommend being a part of Istanbul Gelisim University to everyone.
