

# RADIO AND TELEVISION PROGRAMMING

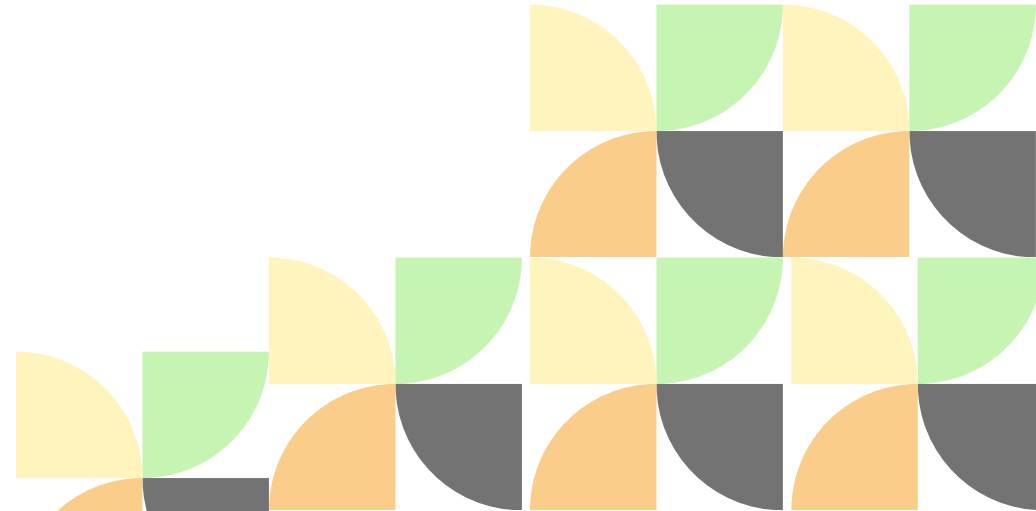

Istanbul Gelisim University  
Istanbul Gelisim Vocational School

“Our program aims to train personnel for the media sector and press units, which are essential for every institution today. Our students step into professional life well-equipped by combining theoretical courses with practical ones.”

*Lect. Görkem Gülay DOĞAN ATICI*  
*Head of The Radio and Television Programming Program*

**Istanbul Gelisim**  
Meslek Yüksekokulu

## The Aim of The Program

The Radio and Television Programming Program aims to equip students with the theoretical and technical knowledge necessary for radio and television programming. It also ensures that graduates can manage radio and television programming processes, produce various programs, and broadcast them.

— “ —

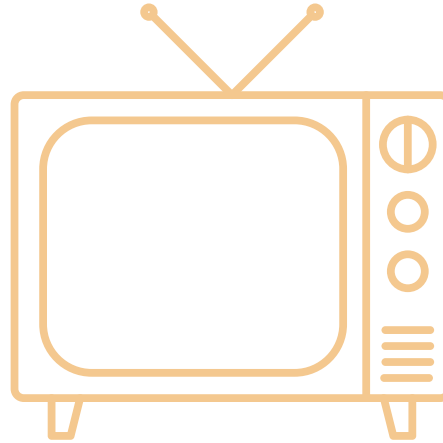

*While aiming for your professional development with our core courses in radio, television, cinema, advertising, public relations, and new media, we also focus on your cultural development through our social elective courses, preparing you for life.*

— ” —

## Program's Future

The Radio and Television Programming Program aims to train individuals who are proficient in using various mass communication tools, especially radio and television. These individuals will be capable of solving problems related to the radio and television field, producing radio and television programs, and fulfilling their responsibilities within teams.

## Curriculum Information

At Istanbul Gelişim University, the normal duration of the Civil Aviation Management (English) Program at Istanbul Gelişim Vocational School is two academic years. The total minimum credit requirement to be completed, based on student workload, is 120 ECTS.

In the first two semesters, our students take common courses offered at our vocational school and introductory courses relevant to their field. From the third semester onward, the focus shifts to professional courses, and our students begin taking both the mandatory courses necessary for their profession and elective courses.

## Academic Staff

**Lect.**

Radio and Television Programming  
Head of The Program

**Lect.**  
**Simge YILMAZ**  
Radio and Television Programming

**Lect.**  
**Murat ÇİL**  
Radio and Television Programming

## Sectoral Collaborations

In our pursuit of excellence in education and research, our university places great importance on collaborating with public, private, and non-governmental organizations. These partnerships enable us to share knowledge and resources, work together towards common goals, and build a stronger future.

## Internship

At the end of the second or fourth semester, our students complete a 30-day summer internship, which is a requirement for graduation. This experience helps them advance in their career journey.

## Career Opportunities

Graduates who successfully complete the Radio and Television Programming Program can work in public institutions and the private sector in the fields of radio, television, and cinema.

## Activities

Our university and program not only focus on gaining knowledge and skills but also contribute to becoming an individual who makes a difference and benefits society. Our students have the opportunity to develop their skills in various workshops, learn through fun at festivals, create awareness in social responsibility projects, participate in memorable events, and demonstrate their talents in competitions. Our activities foster collaboration and teamwork skills while also providing career opportunities

The activities carried out are as follows:

- Workshops
- Festivals
- Trips
- Seminars
- Symposiums
- Exhibitions
- Social Responsibility Projects
- Talks
- Sustainable Events

## Double Major Opportunities

The purpose of the double major program is to enable students who successfully complete their major programs to study in a second major program free of charge. Students who have a GPA of 2.90 out of 4.00 in their major program and who are in the top 20% of their undergraduate/pre-degree program can start the second major diploma program free of charge.

## Erasmus+ Program

With Erasmus+, the European Union's (EU) grant program in education, youth and sports opportunities, our students can access various opportunities such as education, training, internship, professional development, non-formal learning-based youth activities abroad.

## Research Centers

Innovative, technological and sociological studies are carried out in many different branches with 20 different application and research centers within our university. In addition, thematic research groups carry out studies that will contribute to science in 10 different fields from food to construction, automotive to health.

IGU Technology Transfer Office, which was established to provide the necessary information and guidance for academicians, researchers, students and graduates to start their own initiatives, listens to all students who say “I have a project” and provides all kinds of opportunities to realize these projects.

## Workshops, Laboratories and Studios

- Photography and Cameraman Workshop
- 6 Computer Laboratories - PC
- Computer Laboratory - MAC
- Plato-RTV Studio
- RTS Studio

## DGS Course

Every year, Istanbul Gelişim Vocational School offers a free Vertical Transfer Exam (DGS) Course to our students. The course covers topics relevant to the DGS, including fundamental mathematics and geometry.

Our second-year vocational school students can apply and register for the course on the announced dates, allowing them to prepare for the DGS free of charge.

## English Course

Within the framework of a vision for continuous development, Istanbul Gelişim Vocational School aims to enhance the human capital of our students by offering professional English courses. These courses are designed to provide education based on social sciences and natural sciences. By working on English texts specific to their fields, the courses reinforce our students' basic English skills.

Our English courses are completely free and contribute to increasing the human capital of our students.

## IGU from Alumni Perspective

### Şeyma Ceyda BULUT

Graduate of the Radio and  
Television Programming Program

In 2023, I graduated from the Radio and Television Programming Program. In the same year, I transitioned to the Radio, Television, and Cinema bachelor's degree program at our school through the Vertical Transfer Exam (DGS). Since the course curricula are compatible, I was exempted from many courses. Thanks to the equipment our school allows us to use, we can easily complete our projects. Numerous events, both related to our field and beyond, are organized at our school. This gives us the opportunity to meet prominent figures in various sectors, including the TV and film industry.
