WEB DESIGN AND CODING

Istanbul Gelisim University
Istanbul Gelisim Vocational School

"*Our program aims to train people who can work as web design specialist, web designer, coding specialist, visual web designer, interface developer in the IT sector and who can solve the problems they will face with the best approach by choosing and using the necessary technologies.*"

Lect. Çisem YAŞAR
Head of Web Design and Coding Program

İstanbul Gelişim
Meslek Yüksekokulu

The Aim of The Program

Our main goal is to train qualified human resources needed in the fields of web design and coding. In addition, our program aims to equip the personnel who are currently working in the fields of web design and coding with the knowledge and skills to increase their efficiency and productivity.

> *Our program teaches our students modern web technologies, develops their creativity and problem solving skills, and supports them to shape the digital world of the future.*

Future of the Program

The aim of the Web Design and Coding Program is to train students as individuals who can interpret and evaluate data using the knowledge and skills they have acquired in the field, identify problems in design and software issues and develop solutions.

Sectoral Collaborations

In its pursuit of excellence in education and research, our university attaches great importance to collaborating with public, private and non-governmental organizations. These collaborations enable us to build a stronger future by sharing our knowledge and resources and working together to achieve common goals.

Internship

At the end of the second or fourth semester, our students advance in their career journey by completing a 30-day summer internship in order to graduate.

Career Opportunities

Our graduates who successfully complete the Web Design and Coding Program can work as web design specialist, web designer, coding specialist, visual web designer, interface developer in the IT sector. In addition, our graduates can also establish their own web design companies.

Activities

Our university and our program contribute not only to gaining knowledge and skills, but also to progressing towards becoming an individual who will make his/her own difference and benefit the society. Our students have the opportunity to develop their skills in various workshops, learn by having fun at festivals, raise awareness in social responsibility projects and participate in unforgettable events, and have the chance to show themselves in competitions. Our activities develop cooperation and team skills. They also offer career opportunities.

The activities carried out are as follows:

- Workshops
- Festivals
- Trips
- Seminars
- Symposiums
- Exhibitions
- Social Responsibility Projects
- Conversations
- Sustainability Events

Double Major Opportunities

The purpose of the double major program is to enable students who successfully complete their major programs to study in a second major program free of charge. Students who have a GPA of 2.90 out of 4.00 in their major program and who are in the top 20% of their undergraduate/pre-degree program can start the second major diploma program free of charge.

Erasmus+ Program

With Erasmus+, the European Union's (EU) grant program in education, youth and sports opportunities, our students can access various opportunities such as education, training, internship, professional development, non-formal learning-based youth activities abroad.

Research Centers

Innovative, technological and sociological studies are carried out in many different branches with 20 different application and research centers within our university. In addition, thematic research groups carry out studies that will contribute to science in 10 different fields from food to construction, automotive to health.
IGU Technology Transfer Office, which was established to provide the necessary information and guidance for academicians, researchers, students and graduates to start their own initiatives, listens to all students who say "I have a project" and provides all kinds of opportunities to realize these projects.

Research Projects

Project Type: Normal Research Project

Project Name: Calculation of Carbon Footprint of Istanbul Gelisim University Tower Building and Short Medium and Long Term Load Forecasting with Artificial Intelligence Methods

Project Manager: Assoc. Prof. Lokman KANTAR

Researcher(s): Assoc. Prof. Bahtiyar DURSUN, Assist. Prof. Ercan AYKUT, Lect. Ali ÇETİNKAYA, Lect. Kübra ERDOĞAN, Lect. Sena Nur BENLİ, Lect. Sena TAŞ, Lect. Tuğba SARAY ÇETİNKAYA, Lect. Çisem YAŞAR

Project Status: Ongoing

Workshops, Laboratories and Studios

- 6 Computer Laboratory-PC
- Computer Laboratory-MAC

DGS Course

English Course

Istanbul Gelisim Vocational School organizes the Vertical Transfer Examination (DGS) Course for our students free of charge every year. In the course, topics for DGS, especially basic mathematics and geometry, are covered.
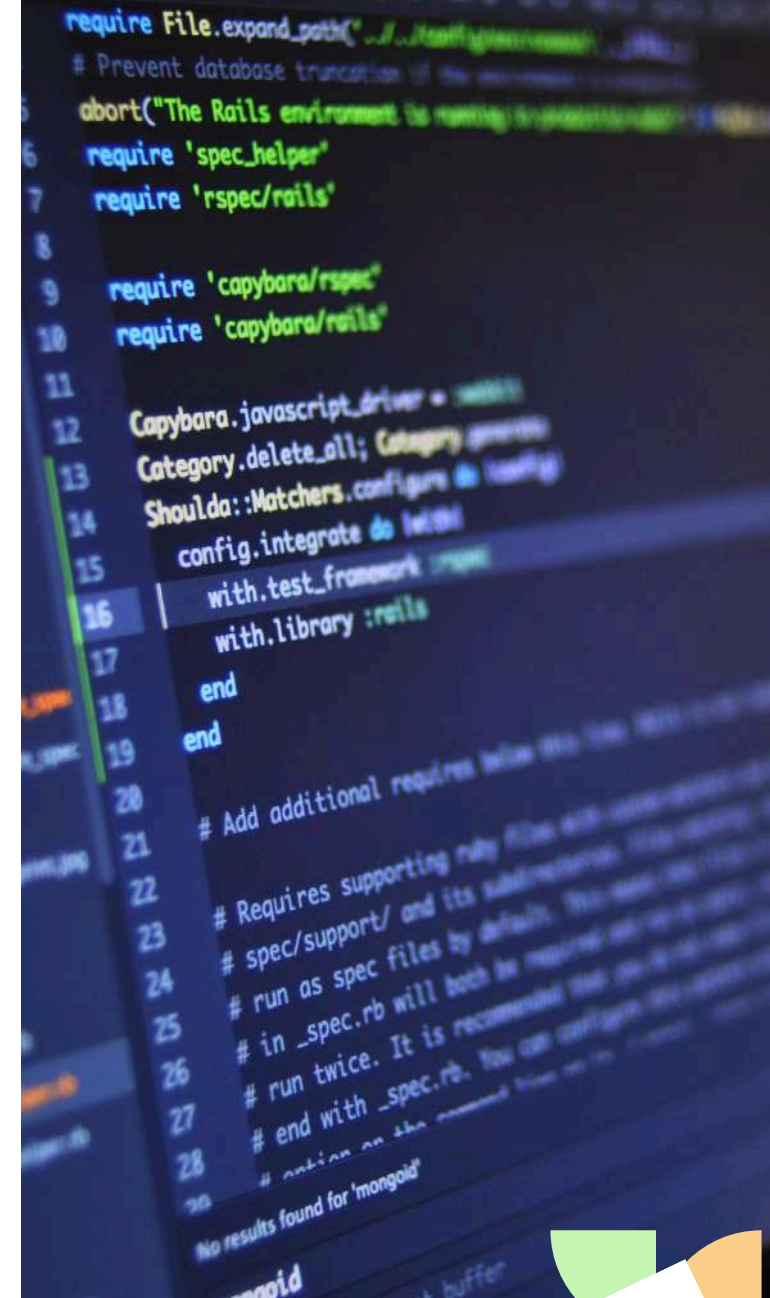

Our students can register for our course organized for second year students of our vocational school by applying on the announced dates and prepare for DGS free of charge.

Istanbul Gelisim Vocational School, which operates with the aim of increasing the human equipment of our students within the framework of its vision of continuous development, opens vocational English courses for our students. The courses aim to provide an education based on social sciences and natural sciences. In the courses, our students' basic English knowledge is reinforced by working on field-specific English texts.

Our English courses are completely free of charge and contribute to increasing the human capital of our students.
