INSTITUTE OF GRADUATE STUDIES AND DIRECTOR'S MESSAGE

Institute of Graduate Studies

Postgraduate education by Istanbul Gelisim University has been available since the 2012 - 2013 academic year, Fall semester. It has continued to be a part of development by increasing both the number of our programs and our academic staff for more than a decade.

Mission of Istanbul Gelisim University Institute of Graduate Studies is to foster proficient, active, creative, ethical and responsible individuals by contributing to the development of modern science and technology; to be an institution based on academic ethics and high quality standards, to support the cooperation among employees and encourage clear and accountable management.

Additionally; vision of Istanbul Gelisim University Institute of Graduate Studies is to become a prestigious institution that constantly develops and provides effective service by using the latest technological improvements national wide and regionally.

INSTITUTE OF GRADUATE STUDIES AND DIRECTOR'S MESSAGE

Director's Message

Istanbul Gelisim University Institutes of Graduate Studies offers you the opportunity to improve yourself with its experienced, professional and distinguished staff. Current Master's and PhD programs of our institute gives our students the ability of thinking analytically and producing effective solutions to problems. Moreover; our university has taken it upon itself to provide international and local collaborations by new graduate programs. You will have the opportunity to highlight your qualities by improving yourself at Istanbul Gelisim University. We will be happy to see you among us.

Prof. Dr. İzzet GÜMÜŞ

PROGRAM PURPOSE, TARGET, ACHIEVEMENTS

Purpose of Department

Political Science and Public Administration" is a discipline that helps explain and understand political and administrative changes at both local and international levels. In this context, the Political Science and Public Administration program aims to train qualified experts and leaders who will shape the public sector, private sector, and political life, equipping graduates with relevant qualifications and leadership competencies.

Target of Department

The main objective of the Political Science and Public Administration master's program is to train qualified graduates who are preferred at all levels of public administration, who are respectful on the basis of democracy and human rights, who can respond to the needs of the society in which they live and who can lead. This program aims to provide students with analytical thinking, research skills, ethical values and management skills. Graduates will be equipped to solve complex political and administrative problems, communicate effectively and produce sustainable solutions.

PROGRAM PURPOSE, TARGET, ACHIEVEMENTS

The program aims to contribute to the more effective and efficient execution of public services by training future managers and experts. With the theoretical knowledge and practical skills it provides to students, it allows them to play an important role in the field of politics and public administration.

Achievements

Political Science and Public Administration Master's Program aims to provide students with a solid theoretical formation in the field of public administration. This program aims to train its graduates as qualified experts who can lead the public sector, private sector and political life with the knowledge gained from different fields of science such as political science, administration, law, economics.

Career Opportunities

- “ Graduates of the Department of Political Science and Public Administration have the opportunity to make a career in the public sector, private sector, and third sector organizations by taking advantage of the advantages of interdisciplinary education. Graduates of our program are employed as experts, members of the board of inspectors, administrative judges, district governors, district governors and other middle and senior managers in public, private, and voluntary organizations such as ministries, local governments, SOEs, non-governmental organizations, and financial institutions, with the knowledge they have gained from different fields of science such as political science, administration, law, and economics.
