

FLIGHT OPERATIONS MANAGEMENT

Istanbul Gelisim University
Istanbul Gelisim Vocational School

“ We train Flight Operations Managers with our DGCA authorization, which is only available in a few universities in Turkey. You can train yourself in this field with the courses you will take by our authorized pilot and dispatcher lecturers; you can work as a dispatcher all over the world with the license you will receive. ”

Lect. Çiğdem ÇAĞLAR
Head of Flight Operations Management Program

İstanbul Gelisim
Meslek Yüksekokulu

The Aim of The Program

The aim of the Flight Operations Management Program is to train Flight Operations Specialists (Flight Dispatchers) who inform the flight crew to ensure the safe and efficient continuation of the flight, monitor the flight flow to transfer the information about the flight to the necessary units, and ensure that emergency information is transmitted to the necessary units in order to fulfill national and international civil aviation regulations and flight safety measures.

— “ —

The fact that we are an authorized institution by the Directorate General of Civil Aviation is an indication of the quality of the training you will receive here.

— ” —

Future of the Program

To ensure the planning, implementation, monitoring, management and control of flight operations of all types of civil aircraft in accordance with national and international civil aviation standards.

Curriculum Information

The normal education period to complete the Istanbul Gelisim University, Istanbul Gelisim Vocational School Flight Operations Management Program is two academic years and the total minimum credit amount to be completed depending on the student workload is 120 ECTS.

In the first two semesters, our students take the courses taught in common in our vocational school and the basic introduction to the field in a professional sense. Starting from the third semester, the focus is on vocational courses and our students begin to take elective courses as well as the compulsory courses required in the vocational sense.

Sectoral Collaborations

In its pursuit of excellence in education and research, our university attaches great importance to collaborating with public, private and non-governmental organizations. These collaborations enable us to build a stronger future by sharing our knowledge and resources and working together to achieve common goals.

Internship

At the end of the second or fourth semester, our students advance in their career journey by completing a 30-day summer internship in order to graduate.

Career Opportunities

In the aviation sector, which grows faster every year, the number of new lines opened and the number of aircraft increases, and the number of operations managers needed is increasing day by day. It is expected to increase even more in the coming years.

Activities

Our university and our program contribute not only to gaining knowledge and skills, but also to progressing towards becoming an individual who will make his/her own difference and benefit the society. Our students have the opportunity to develop their skills in various workshops, learn by having fun at festivals, raise awareness in social responsibility projects and participate in unforgettable events, and have the chance to show themselves in competitions. Our activities develop cooperation and team skills. They also offer career opportunities.

The activities carried out are as follows:

- Workshops
- Festivals
- Trips
- Seminars
- Symposiums
- Exhibitions
- Social Responsibility Projects
- Conversations
- Sustainability Events

Double Major Opportunities

The purpose of the double major program is to enable students who successfully complete their major programs to study in a second major program free of charge. Students who have a GPA of 2.90 out of 4.00 in their major program and who are in the top 20% of their undergraduate/pre-degree program can start the second major diploma program free of charge.

Erasmus+ Program

With Erasmus+, the European Union's (EU) grant program in education, youth and sports opportunities, our students can access various opportunities such as education, training, internship, professional development, non-formal learning-based youth activities abroad.

Research Centers

Innovative, technological and sociological studies are carried out in many different branches with 20 different application and research centers within our university. In addition, thematic research groups carry out studies that will contribute to science in 10 different fields from food to construction, automotive to health.

IGU Technology Transfer Office, which was established to provide the necessary information and guidance for academicians, researchers, students and graduates to start their own initiatives, listens to all students who say “I have a project” and provides all kinds of opportunities to realize these projects.

Workshops, Laboratories and Studios

- 6 Computer Laboratory-PC
- Computer Laboratory-MAC
- 2 Aircraft Systems Laboratory
- 2 Aircraft Engine Laboratories
- Aircraft Structural / Mechanical Laboratory
- Aircraft Electronics / Avionics Laboratory
- Civil Aviation Cabin Services Laboratory
- Aircraft Composite Workshop

DGS Course

Istanbul Gelisim Vocational School organizes the Vertical Transfer Examination (DGS) Course for our students free of charge every year. In the course, topics for DGS, especially basic mathematics and geometry, are covered.

Our students can register for our course organized for second year students of our vocational school by applying on the announced dates and prepare for DGS free of charge.

English Course

Istanbul Gelisim Vocational School, which operates with the aim of increasing the human equipment of our students within the framework of its vision of continuous development, opens vocational English courses for our students. The courses aim to provide an education based on social sciences and natural sciences. In the courses, our students' basic English knowledge is reinforced by working on field-specific English texts.

Our English courses are completely free of charge and contribute to increasing the human capital of our students.
