REPUBLIC OF TURKEY
ISTANBUL GELISIM UNIVERSITY RECTORATE
Information Security Policy

This policy covers education, training activities and administrative organization activities and information assets related to these activities and business processes related to information security used to protect these assets.

- Our Information Security Management System guarantees the proper execution of all our activities which comply with the ISO 27001:2022 standard.
- They undertake to provide secure access to their own and their stakeholders' information assets,
- To protect the usability, integrity and confidentiality of information,
- To evaluate and manage the risks that may occur on their own and their stakeholders' information assets,
- To protect the reliability and brand image of the institution,
- To apply the sanctions deemed necessary in case of violation of information security,
- To provide information security requirements arising from national, international or sectoral hand regulations to which it is subject, fulfilling legal and relevant legislation requirements, meeting its obligations arising from agreements, and corporate responsibilities towards internal and external stakeholders,
- To reduce the impact of information security threats on business/service continuity and ensure business continuity and sustainability,
- To protect and improve the level of information security with the established control infrastructure.
