

REPUBLIC OF TURKEY
ISTANBUL GELISIM UNIVERSITY RECTORATE
Department of Information Technologies Policy

The IT Department states ensuring that all transactions can be executed digitally as their major reason for existence. Digitalization covers the execution of all processes by the system in accordance with the regulations, directives, procedures and instructions, regardless of the person.

The strategy of the IT Department is to save the manpower of our university from the complexity of standard procedures and to save extra time for education and training through minimizing the errors that may arise.

Our Objectives

1. Ensuring that all operations can be executed through software.
2. Reducing workload.
3. Simplifying operations.
4. Boosting satisfaction.
5. Providing resources to our university.
6. Strengthening the university technology infrastructure.
7. Minimize data loss.
8. Ensuring data security and integrity.

Indicators are used to monitor the degree to which these goals are achieved. Realization percentages are determined, corrective and remedial measures are taken accordingly.
