APPLICATION DATES

For the 2025 Project Year, applications for Erasmus+ Internship Mobility will be accepted **ONLINE** from **February 19th to March 10th** via the portal system (<https://turnaportal.ua.gov.tr/giris>). Applicants are required to complete their applications by uploading the necessary documents to the system. Applications with missing or incorrect documents will be deemed invalid. It is crucial for applicants to read the 2024 Project Year Erasmus+ Internship Mobility Application Guide before applying. Please refer to the Online Application Guide for information regarding the application system.

ERASMUS+ LANGUAGE EXAM

The Erasmus+ Language Proficiency Exam will be conducted between **March 18th and March 20th, 2025**, by the Istanbul Gelisim University School of Foreign Languages. The written part of the exam will take place on **March 18th, 2025**, while the speaking part will be held on **March 20th, 2025**. Exam times will be announced on the Istanbul Gelisim University School of Foreign Languages website. Students who score 19 points or below in the written exam will not be eligible to take the speaking exam. Don't forget to bring your student ID cards with you to the exam. The exam consists of two parts: Test and speaking. The test section includes multiple-choice questions covering three areas: Grammar, vocabulary, and reading comprehension. It is mandatory for students to take the speaking exam after completing the test section. If both parts (test and speaking) are not completed, your exam will be considered invalid. You can access sample exam questions at <https://ydyo.gelisim.edu.tr/tr/akademik-icerik-ornek-sinavlar>. To pass the Erasmus+ Language Proficiency Exam, you need to score at least 60 points. Students who declare their intention to take the Language Proficiency Exam but fail to attend will have 5 points deducted from their next application. **NOTE:** International exams recognized by YDS, YÖKDİL, and ÖSYM are also accepted. During the application process, you will need to upload a document proving that you have scored at least 60 out of 100 in the relevant exams. Students who upload the relevant document will be exempt from the Erasmus+ Language Proficiency Exam. For further details regarding the exam, please follow the Istanbul Gelisim University School of Foreign Languages website (<https://ydyo.gelisim.edu.tr/tr/akademik-anasayfa>).

IMPORTANT POINTS

***Erasmus+ Internship Mobility** Students who are awarded grants under the Erasmus+ Internship Mobility framework can receive funding for up to 2 months. After this period, students may continue their internship activities without funding if they wish to do so.

***Erasmus+ Study and Internship Mobility** can be conducted for a total of up to 12 months at each education level (first cycle: associate degree, bachelor's degree; second cycle: master's degree; third cycle: doctoral, medical specialization). The total mobility period (study + internship) cannot exceed 12 months¹ per education level, whether funded or unfunded.

***If a student applies for both Erasmus Study and Erasmus Internship Mobility** simultaneously, a penalty of -10 points will be applied. In the case of a student who has not previously benefited from mobility and applies for both study and internship activities simultaneously, the decision of which activity will incur the "-10 points" deduction will be left to the student's preference. In this case, the student must indicate their preferred mobility activity as their first choice in the online application form. A deduction of -10 points will be applied to the second choice. If a student who has previously benefited from mobility applies for both study and internship activities simultaneously, a deduction of "-10" points will be applied to the mobility type from which they previously benefited, and a deduction of "-20" points will be applied to the second mobility type they apply for.

WHO CAN APPLY?

1. Students who will participate in the activity must be full-time students. Students enrolled in formal education (day and evening programs) at Istanbul Gelisim University, including associate, undergraduate, and postgraduate students, and who are at least in their first year of study, are eligible to apply for study and/or internship mobility.
2. Students enrolled in Double Major/Minor Programs can only apply from one major.
3. Non-thesis master's students can apply for Erasmus+ Internship Mobility.
4. Those who have previously participated in Erasmus+ mobility activities at the same and/or previous education level can apply. However, it should be noted that Erasmus+ study and internship mobility can be conducted for a total of up to 12 months at each education level.
5. Final year students can apply for **Erasmus+ Internship Mobility**. Final year students must complete the mobility within 12 months after graduation.
6. Students who have not completed the Registration Renewal process or who have Frozen Registration for the relevant academic term can apply to the Erasmus+ Program, but they must be active students during the period of mobility.

¹The 12-month period is calculated based on 360 days.

2. Students cannot apply through the Minor Program.
3. Students who are continuing their education with any exchange program at our University cannot apply.

ATTENTION!

Candidates are required to check their education information and current academic average information over the data on the e-Devlet and application portal system. Candidates are personally responsible for the up-to-dateness and accuracy of the relevant information. If an application is made with incomplete or incorrect information, the application will be deemed invalid

In the evaluation; 50% of the General Weighted Grade Point Average (GPA) and 50% of the Foreign Language Score are taken. The sum of these scores forms the final score (Erasmus+ Grand Total Score). Placements made are final in terms of Erasmus+ Study mobility; however, it is a pre-selection in terms of grant distribution. The announced quotas are estimated, and the students who are placed in line with the quotas based on the Erasmus+ Grand Total Score will be in the status of "Candidate student" until the grant allocation is finalized.

Students who were selected in the previous year and could not be sent due to lack of grant and/or quota or other reasons cannot be sent directly to the next year by transferring them as an "earned right". They are evaluated and selected by providing all the necessary conditions for selection separately for each contract period.

QUOTAS

Under the 2025 project year KA-131 project, grant allocations have not yet been finalized. Therefore, the number of grant-funded positions is not yet determined. However, to effectively utilize the project duration, an estimated quota for Erasmus+ student mobility has been allocated based on 2024 year quota and the number of students in each faculty/school/institute. Additionally, to ensure fair and transparent distribution between English and Turkish departments within faculties, the distribution has been made considering the number of English and Turkish departments.

6 The following activities are considered within this scope: digital marketing (e.g., social media management, web analytics), digital graphics, mechanical and architectural design; application, software, and code development; website development; installation, maintenance, and management of information systems and networks; cybersecurity, data analytics, data mining, and visualization; programming, robotics, and artificial intelligence training. General customer service, lead generation, data entry, or routine office tasks are not considered within this scope.

7 In addition to the average of academic achievements and foreign language scores, for students who have previously benefited from higher education student or internship mobility within the Erasmus+ framework (2014-2020 or 2021-2027) within the same educational level, the Erasmus selection score is calculated taking into account a deduction of 10 points for each previously benefited activity (without distinguishing between education and internship).

Under the grants allocated by the Turkish National Agency for the 2024 Project Year Erasmus+ Internship Mobility, the number of available positions may be more or less than the estimated quotas. Therefore, whether all students listed in the main list will receive grants will be finalized after the grant allocation by the Turkish National Agency. Students on the reserve list can participate in mobility without a grant within the quotas of the universities we have agreements with.

Through the distance calculator, the distance in kilometers between the student's place of residence and the activity location is determined, and travel grants are calculated using the table below. The amount corresponding to the distance obtained from the distance band calculator in the table below represents the round-trip grant, and this amount is not multiplied by two.

Green travel is travelling by using public transport with low carbon emissions. The use of buses, trains and shared cars are included in the scope of green travel. In order to receive green travel support, green travel must be used on departure and return and more than half of the entire journey must be made using green vehicles.
