KONGRE HAKKINDA

II. Uluslararası Karadeniz Bilimsel İncelemeler ve Araştırmalar Kongresi, farklı disiplinlerde yürütülen güncel ve özgün akademik çalışmaların paylaşılmasını amaçlayan uluslararası nitelikte bir bilimsel buluşmadır. Kongre; sosyal bilimler, fen bilimleri, mühendislik ve ilgili diğer alanlarda çalışan araştırmacıları ortak bir akademik zeminde bir araya getirerek bilimsel etkileşimi ve akademik üretimi güçlendirmeyi hedeflemektedir.

Kongre kapsamında sunulan çalışmalar, yüz yüze ve çevrim içi oturumlar aracılığıyla tartışılmakta; katılımcılar alanında uzman akademisyenlerle bilimsel etkileşim kurma ve geri bildirim alma imkânı bulmaktadır. Bu yönüyle kongre, yalnızca bir sunum ortamı değil, aynı zamanda akademik gelişimi destekleyen dinamik bir paylaşım alanı sunmaktadır.

Kongre kapsamında sunulan tüm bildiriler, uluslararası akademik yayın standartları ve bilimsel etik ilkeler doğrultusunda çift kör hakemlik sistemi ile değerlendirilmiştir. Değerlendirme sürecinde çalışmaların özgünlük düzeyi, yöntemsel sağlamlığı, literatüre katkısı ve bilimsel niteliği titizlikle incelenmiştir. Bu kapsamlı akademik değerlendirme süreci sonucunda 18'i Türkiye'den olmak üzere 12 farklı ülkeden toplam 46 bildiri kabul edilmiştir.

Kabul edilen bildiriler, ISBN ve DOI numaraları ile kayıt altına alınarak yayımlanacak olan bildiri kitabında yer alacak; böylece çalışmalar uluslararası ölçekte erişilebilir, kalıcı ve atıf yapılabilir bir akademik kaynak niteliği kazanacaktır.

ABOUT THE CONGRESS

The II. International Black Sea Congress on Scientific Reviews and Research is an international scientific gathering aimed at sharing current and original academic studies conducted across various disciplines. The congress seeks to bring together researchers working in the social sciences, natural sciences, engineering, and related fields on a common academic platform, thereby strengthening scientific interaction and academic productivity.

The studies presented at the congress are discussed through both face-to-face and online sessions, providing participants with opportunities to engage in scientific interaction with academics who are experts in their respective fields and to receive valuable feedback. In this respect, the congress serves not only as a platform for presentations but also as a dynamic environment that supports academic development and knowledge sharing.

All papers submitted to the congress have been evaluated through a double-blind peer-review process in accordance with international academic publication standards and the principles of scientific ethics. During the evaluation process, the originality, methodological rigor, contribution to the literature, and scientific quality of the studies were carefully examined. As a result of this comprehensive academic evaluation process, a total of 46 papers from 12 different countries, including 18 papers from Türkiye, were accepted.

The accepted papers will be included in the proceedings book to be published with ISBN and DOI numbers, ensuring that the studies become accessible, permanent, and citable academic resources at the international level.
